CHINA TORN BY REVOLTS IS MENACED

Nationalist Government Faces One of Worst Crises It Has Encountered in Its History

REBELS THREATEN TO TAKE CAPITAL

Mutineers, Communists and Revolutionaries Create Conditions of Chaos Throughout Country

SHANGHAI, Dec. 5.—China's Nationalist Government faced tonight one of the most serious crises in its brief and tempestuous existence.

Many thousands of its troops were in mutiny in several provinces, disorders gripped almost the entire Yangtze Valley in which live many millions, organized Communists and bandits ravaged the countryside in at least two central and southern provinces, the Kuomintang bribed rebel forces gave signs of again fighting Government troops, and southern rebel forces threatened the great city of Canton.

For the time being, at least, Russian armed raids in Manchuria were halted by preliminary negotiations for peaceable settlement of the Chinese Eastern Railway dispute.

MUTINY WIDESPREAD

The mutiny of Government troops which began on Tuesday at Pukow, across the Yangtze River from the Nanking capital, was reported to have spread to many other localities. The original mutineers, rebelling against orders to proceed to Kwangtung to suppress the attack directed at Canton, looted Pukow and went northward by train to Pengpu.

Joined by other rebel forces of Kiangsu and Shantung provinces, their numbers were said to have reached 30,000 along the Tientsin-Pukow railway, under command of Shih Yu-san, general of the Twenty-Fourth military division.

President Chiang Kai-shek sent three of his best divisions to Pukow to cope with this situation, and approximately 15,000 men crossed the Yangtze before midnight. Twenty-five thousand others are expected to proceed to Pukow unless the insurrection ends quickly.

The Kuomintang rebel forces, whose fighting in Hunan and Hupeh provinces ceased recently when their leaders were said to have been bribed with millions of dollars by Nationalist Government officials, were said to be about to resume armed attack upon Government forces.

BANDITS AND COMMUNISTS

Thousands of bandits and "Communist armies" were actively looting the people of Fukien, Kiangsi, Hunan and Hupeh provinces. A brigade of Nationalist troops was reported to have mutilated and looted.

Is Re-elected Mayor of Victoria City

MAYOR HERBERT ANSCOMB

MR. ANSCOMB RETURNED BY ACCLAMATION

Mayor Is Accorded Second Term as Civic Leader—Twenty-Two Candidates Seek Ten Positions

NO SURPRISES ON NOMINATION DAY

Mayor Herbert Anscomb will direct the civic government of Victoria for the next twelve months, having been yesterday returned by acclamation for a second term as the city's chief magistrate.

His Worship's nomination was the only one received for the mayoralty yesterday, and he was declared elected by City Clerk M. Frank Hunter, the returning officer, in the Council Chamber at the City Hall.

"I highly appreciate the confidence and trust that the electors of Victoria have reposed in me in electing me as mayor of the capital city for a further term," Mayor Anscomb told the Council.

His Worship said that many matters of great importance to the welfare of not only the present citizens but also of future generations must be settled within the next few years, and that he proposed doing what he could to lay the foundation for the future success of these problems.

"I trust that I may have the wholehearted support of the entire council during the coming year in advancing the progress and development of our city," Mr. Anscomb declared.

JUNIORS TO BENEFIT BY ADJUSTMENT

Interim Report of Civil Service Commissioner Will Enable Minor Officials to Receive Increase

STATEMENT MADE BY HON. S. L. HOWE

Definite Plans for Entry, Advancement of Pay and Training of Personnel to Be Announced Later

SUFFICIENT progress has been made by Colonel Ross Napier, commissioner charged with the reorganization of the civil service of the province, to allow of almost immediate action being taken to adjust the salaries of about one-third of the employees. This section of the civil service will include those in the service who occupy minor clerical offices.

The other grades will be dealt with as quickly as possible, it is announced by the Government.

Under the Civil Service Act passed in 1917, it was specified that there should be regulations formulated to govern the Civil Service Commission in the carrying out of its duties. For some reason there have been any such regulations framed, and the Department Commission, on entering upon its duties, found nothing in this line to facilitate him in reaching his conclusions.

To prevent matters relating to their former chaotic state, definite plans for entry, advancement of pay and systematic training of the personnel of the civil service, which have been carefully considered by the departmental commissioner and heads of departments, will be submitted to the executive.

In making an announcement as to the progress of the work in hand, the Provincial Secretary, Hon. S. L. Howe, has authorized the information that adjustments of salaries covering about one-third of the personnel of the provincial civil service, will be made known almost immediately, thus enabling cheques for the necessary amounts to be issued during the current month.

While, according to interim reports of the Departmental Commission, the progress of the work is being carried out in a most efficient manner, it is expected that the necessary amounts to be issued during the current month.

Hon. H. Marler Back From Tour Of West Japan

TOKYO, Japan, Dec. 5.—Hon. Herbert Marler, the Canadian Minister, has returned from a tour of Kansai, as Western Japan is called. He visited Osaka, Kobe and other important places. He met leading Japanese officials and business men as well as Canadian and British residents, so as to gain first-hand information as to conditions in that part of Japanese Empire.

KILLED BY EATING HEADACHE TABLETS

PENDLETON, Ore., Dec. 5.—Jimmy Rice, three years old, died today after eating headache tablets. The youngster found the tablets and ate ninety-five grains before he was discovered. Five grains is considered a normal dose for an adult.

BURNED IN SLEEP

ABERDEEN, Wash., Dec. 5.—Jos. Starr, fifty-five, was burned to death today when caught in his shirt at Cosmopolis, apparently asleep.

McAlpine Party Is Back From North After Months Of Living In Subarctic

CRANBERRY PORTAGE, Man., Dec. 5.—Colonel C. D. H. McAlpine is back from the North. Two ski-fitted airplanes came down on the ice of Lake Athabapuskow late today with five members of the Dominion Explorers' party, which was expected to arrive at Cranberry Portage tomorrow with the last of the Northern wanderers.

In all, thirteen men made the hop from Stony Rapids, to the first railway station at Cranberry Portage. Six had arrived on Monday when Andy Crutchen, a member of the party, was proceeding to their homes. Another half-dozen are believed to be halted at the south end of Reindeer Lake, midway between Stony and Cranberry Portage.

HOW THEY RETURNED

Capt. H. Hollick-Kenyon, rescue pilot, brought in the first plane load of adventurers today. He arrived at fifteen minutes after four o'clock with Capt. Stanley B. McMillan, Edmonton, pilot of one of the original McAlpine planes. A Broadway, Berkeley, Cal., geologist, also a member of the original

U. S. Claims Taxes Still Pay for War

WASHINGTON, Dec. 5.—President Hoover today gave the public his "Federal budget at a glance" for those who have not the time to wade through the staggering compilation of figures which accompanied his budget message to Congress.

The statement of today showed that approximately 72 cents of every dollar to be spent by the Federal Government during the next fiscal year must go to pay for past wars and preparedness for any that may occur in the future.

Only 8 cents of every dollar will be spent to keep the actual machinery of the Government functioning. 13 cents will be devoted to the social aids and subsidies, and 7 cents to maintaining the Government's fiscal affairs.

ORDER MARKS PARADING OF UNEMPLOYED

Procession of Workless at Vancouver Featured by No Untoward Incidents and Is Unexciting

RELIEF CHAIRMAN HEARS DELEGATES

VANCOUVER, Dec. 5.—Between five hundred and one thousand unemployed paraded this afternoon from Powell Street, along Hastings, and past the City Hall. Afterward they were addressed by their leaders in a square at the corner of Charrall and Powell Streets. They were informed that the City Council, and would report to a meeting of the unemployed on Monday.

There was no excitement in connection with the gathering. Chief of Police Bingham this morning consented to the holding of the parade, but warned that if a red flag was carried, a Union Jack must be carried in front of it. The paraders carried no flag at all.

RECEIVES DEPUTATION Alderman W. C. Atherton, chairman of the Civic Relief Committee, received a delegation of the marchers at the City Hall.

Representing the Vancouver unemployed workers' organization, which claims a membership of 1,000, the delegation presented its formal demands on the City Council for the relief of many thousands of unemployed declared to be in the city.

Work, or full maintenance at union rates of pay; that a sufficient sum of money be appropriated by the City Council for the purpose of relieving the unemployed workers, irrespective of color or nationality, pending action on the Government's Provincial and Dominion unemployment relief bill.

The delegation also requested that the City Council call upon Greater Vancouver School Board to provide books and clothing for children of the unemployed.

Disorder and Violence Break Out at Haiti and Drastic Measures Are Taken by Marine Corps

BUT UNREST STILL CAUSE OF UNEASE

PORT AU PRINCE, Haiti, Dec. 5.—Colonel Richard Cutts, commander of U.S. Marine Corps forces here, issued a proclamation last night declaring martial law in Port au Prince and Cape Haitien. A strike in the customs office, which threatened serious complications, was the cause.

The strike broke out at 9:30 a.m. yesterday after the dismissal of a Haitian customs employee for fraudulent entries.

Collector D. P. Johnson and another American were struck by clubs while trying to calm the disorder in the customs house. Some of the clerks smashed their typewriters and forced an entrance into the government buildings to persuade other employees to join them.

GUARDS ARE DEFIED

Twenty-eight leaders and members of the crowd, who defied the guards, were arrested. Patrols of marines and guards had the city quiet within an hour and a half.

The news of the proclamation and of the sight of patrols of marines in the streets had an immediate effect on the population. Stores were opened and business, which had stopped for a short time, was renewed.

All points outside the capital were quiet this morning, except Cayes, where the situation was reported to be tense. Reinforcements were sent but the capital itself was quiet but an undercurrent of unrest was noticeable.

Prospects for Changes in Cabinet

CHANGES in the Dominion Cabinet are rumored. When in Winnipeg, Premier King discussed with Hon. T. A. Crerar the possibility of his returning to political life and replacing Hon. Robert Forke of Railways and Canals to Finance is believed to be the first step in a cabinet reorganization that will form when next general election for its completion. The photographs here show: 1. Hon. T. A. Crerar, former Progressive leader in the House, whose name has been mentioned in connection with succession to Hon. Charles A. Dunning as Minister of Railways and Canals and also to Hon. Robert Forke as Minister of Finance; 2. Hon. Robert Forke, Minister of Immigration and Colonization, who is reported to be in line for appointment to the Senate in the vacancy caused by the death of Hon. E. Watson; 3. Hon. Peter I. Veniot, now in the Postoffice portfolio, who may become Secretary of State; 4. Mr. Charles B. Howard, of Sherbrooke, who may become a minister without portfolio; 5. Hon. Charles Stewart, Minister of the Interior, who, in the event of Hon. Robert Forke's appointment to the Senate, will combine the latter's duties with his own until after the election; 6. Hon. F. Rinfret, Secretary of State, who may become Postmaster-General.

Fisheries Conference to Open Here With Large Attendance of Operators

THE open conference on matters relating to the powers which the Province has in the regulating of fisheries, will open today. This conference has been called by the minister in charge of that department of government, Hon. S. L. Howe. Provincial Secretary and Commissioner of Fisheries.

It is anticipated that at least sixty representatives of all phases of the industry will be in attendance at this round table conference. Under the enlarged powers which have been decided by the Imperial Privy Council rests with the province, and which covers the administration of all packing, canning and other operations in which fish are used, it is realized by the minister that there will of necessity be much to be done in the matter of framing regulations to cover this work. He feels that the fullest information is necessary in order that they may be framed in the best possible way to meet the needs of the industry.

MARTIAL LAW WITH TROOPS STOPS STRIKE

Disorder and Violence Break Out at Haiti and Drastic Measures Are Taken by Marine Corps

Collector D. P. Johnson and another American were struck by clubs while trying to calm the disorder in the customs house. Some of the clerks smashed their typewriters and forced an entrance into the government buildings to persuade other employees to join them.

This demonstration was broken up, but the clerks returned again and had to be checked once more.

Twenty-eight leaders and members of the crowd, who defied the guards, were arrested. Patrols of marines and guards had the city quiet within an hour and a half.

The news of the proclamation and of the sight of patrols of marines in the streets had an immediate effect on the population. Stores were opened and business, which had stopped for a short time, was renewed.

GALE TELLS TRAGEDY OF SHIPWRECK

Fierce Tempest Causes Devastation and Destruction in Many Parts of British Isles

VESSEL SINKS IN SIGHT OF PEOPLE

Sixteen Lives Are Lost While Five Sailors Are Saved After Having Clung to Wreckage

LONDON, Dec. 5.—A tempest in which the wind at times blew at the rate of a hundred miles an hour, swept Great Britain last night and most of today. Before it had spent its force, it had caused enormous damage on land and at sea.

The crowning tragedy of a day and night of destruction was the foundering of the St. Francis Duncan, off Land's End. The destruction of the big boat could be plainly seen from the Looe lighthouse.

TOSSED HIGH IN AIR

The vessel, of 2,384 tons, was trying to fight her way against the storm when a big wave tossed her high in the air and she turned over. A few seconds later she bobbed up like a cork but was lying on her side.

Within a minute or two she had disappeared. Sixteen of her crew of twenty-one went down with her. The other five clung to bits of wreckage until the St. Alice Marie, bound for Norway, picked them up. The rescue vessel turned out of her course and set the survivors ashore at Falmouth.

FORRENTS OF RAIN

Torrential rains, which accompanied the gale, increased the already widespread flood damage in Wales. Throughout the United Kingdom many persons were injured by flying debris or in traffic accidents that were due directly to the weather.

The storm swept in from the Atlantic and hit Ireland first. Then it crossed over Wales and England, blowing itself out on the French Channel coast.

All shipping in the English Channel was halted and London to Paris air service was canceled for the day. As the day progressed reports arrived recording more damage to roofs, houses, telephone and telegraph wires and the curtailment of train and motor car traffic by fallen trees.

The first loss of life was reported from Ireland where the crew of a small fishing boat numbering three men were drowned when their vessel foundered.

The French liner France had to omit its call at Plymouth and proceeded for New York without picking up passengers. The ship left behind at Plymouth will call at

CONTRACT FOR GENERATOR IS NOW AWARDED

Fourth Unit of Jordan River Development Lacks Only Transfer Tender to Be Accepted

INSTALLATION BY BRITISH FIRM

Third of the contracts to be awarded in connection with the fourth unit installation at Jordan River, the B.C. Electric Railway Company yesterday placed the contract for delivery of the motor generator with the English Electric Company, of Rugby, England.

The cost will be about \$90,000 and the period of delivery is set to synch with the waterwheel, for which a tender of the same company was accepted on Wednesday, at a price of \$70,000.

The tender for the transformers is the only remaining bid to be examined, as the first contract was awarded earlier to the Vancouver Engineering Works Ltd. The amount of this contract is \$287,000 and includes the fabrication of the steel plates in the field. These plates are one and one-sixteenth inches thick with rivets one and one-quarter inches in diameter. It will require 2,300 tons of steel plate to fabricate this pipeline.

All these contracts will call for delivery and installation by the summer of 1930, as it is intended to have the unit ready for service next fall.

Newsprint Price Will Be Raised By Paper Mills

QUEBEC, Dec. 5.—The Chronicle-Telegraph today published the following news item in connection with the newsprint situation in Canada: "It was learned today from a thoroughly reliable source that the price of \$60 a ton for newsprint has been agreed upon by all the Canadian mills, and that announcement of this effect will be issued by them shortly. The price of \$60 will take effect from January 1, 1930."

Postoffice Is Wrecked by Gas Leak in Cellar

PITTSBURGH, Dec. 5.—An explosion of gas wrecked the postoffice at Munhall, a suburb, today, killing

five persons and injuring twenty-six others, two so seriously they may die.

The gas was believed to have leaked from a corroded main in a three-foot cellar beneath the two-story building, and was thought to have been ignited by an open gas stove on the first floor of the structure.

The explosion, which occurred during the noon hour, reduced the postoffice building to a heap of shattered brick. Windows within a radius of eight blocks were shattered.

JUNIORS TO BENEFIT BY ADJUSTMENT

Continued from Page 1

slower, inequalities and necessary adjustments are obvious throughout the whole of the service, the process of adjustment on a systematic basis, must be lengthy and protracted one. It has, therefore, been considered desirable to give first consideration to those clerical classes of the civil service who are lowest paid and who might, therefore, have to "tighten their belts" while awaiting increment or adjustment of pay.

CLERICAL APPOINTMENTS

The adjustments made up to the present time will therefore deal generally with all clerical positions up to the maximum of the 3A grade (\$135), female employees other than stenographers, and sundry employees who, although graded in the 2B class, have been receiving less than the 3A grade maximum. The present adjustment, however, will not include institutional employees, who will be separately dealt with.

The other grades of the service will be proceeded with at once, although in what order the various branches will be dealt with has not been announced.

WITHOUT REGULATIONS

The work has been one of extraordinary difficulty and intricacy, largely owing to the fact that no system of advancement of pay or promotion has ever been laid down for the civil service as a whole, and that no regulations for the work of the Civil Service Commission, as called for by the Civil Service Act, have ever been created.

The first step which had to be taken towards reorganization was to provide a system by which the whole personnel of the civil service could be tabulated in such a way that the stationing of the individual, and also regarding the personnel of the different departments might be made available at a moment's notice. This was completed as far as necessary for the immediate work, and will eventually eliminate a great deal of duplication of work in the different departments.

From the facts made visible for the first time by the system adopted, definite plans for adjustment of salaries of junior clerical, stenographers, clerk-stenographers, etc., were formulated by the Civil Service Commission with the full concurrence and approval of the deputy ministers and other heads of departments, and the adjustments were then made upon the lines agreed upon, thus insuring equality of treatment for all, and each case being given individual consideration.

RELATION TO SCALE

Generally speaking, the positions were found to be paid less than called for by the scale laid down, particularly in the case of older employees, but in some cases individuals had advanced to a higher salary than the scale considered fair allowed for. No increase was, of course, allowed in these cases, and in a few cases the increases or adjustments were very small, but these cases having already been better paid than their fellows, have no cause for complaint. Full consideration was given to the individual positions of male clerks within the 111A grade.

Colonel Napier, in the work in hand, has given a great deal of careful study to the subject, and in reaching his conclusions has recourse to the most approved systems in vogue throughout the Empire. As an associate of the Institute of Public Administration, he has had the advantage of the findings of the best minds engaged in the line of best, not only throughout the Empire, but also other parts of the world.

SCHOOL BY-LAW FOR \$142,920 TO BE SOUGHT

Continued from Page 1

The estimates were gross, and any assistance received from the Government would reduce the cost to the municipality by so much. The usual practice was for the Government to assist to the extent of 25 per cent. Members of the council were not enthusiastic over the application.

After some discussion it was decided by Councilor Sturges and seconded by Councilor Oldfield that the council disapprove of the request of the school board. The motion was carried.

Following the rejection of the application from the Saanich School Board to the Municipal Council for the sum of \$142,920 for a school-building programme, Secretary Brydon intimated that the board would now draft a by-law, and submit it at the next meeting of the council, the course necessary to bring it before the voters at the municipal elections in January.

One member of the McAlpine party is to come out of the North. He is Major G. A. Thompson, Winnipeg, pilot of one of two planes abandoned on Canada's Arctic shore. With five others he is expected to arrive tomorrow.

RETICENT ON HARDSHIPS

Reluctant to converse on the hardships of the journey over the sea ice to Cambridge Bay port, Col. McAlpine made his comments only in answer to direct questions.

The flyers had little to say about their experiences until they consumed a breakfast dinner at a cozy little lodge near the lake shore. Hard luck entered into the story more even than hardships, according to members of the McAlpine group.

The most difficult decision of the journey, according to Col. McAlpine, was made when the men found themselves marooned on the south side of Dease Straits. Open sea water stretched between them and the Hudson's Bay Company post at Cambridge Bay, on Victoria Island. Seventy odd miles along the shore the post lay, and eight miles across the narrows, but eight weeks elapsed before the eager prospectors were able to reach the station.

TOUGHEST DECISION

"There is one story about the adventures," declared the mining company president, "and it can all be told in a few words. We were just forced down without any fuel across the water from the nearest post. After days of reconnoitering and conversing with Eskimos who did not understand English, we determined our position. We found that we could not get across the water for weeks and were forced to turn native and wait. This decision was the toughest of all to take."

An Eskimo family at the spot proved hospitable and other families encountered on the land journey northwest were as considerate but, unfortunately, fish and game were scarce.

The gales swept across Ireland in full force, pushed over trees and small buildings in Wales, Cornwall and Devonshire, and then hit the London district where residents awoke when part of the house collapsed and crashed into a roadway.

Seaports on the eastern and southern coasts reported a heavy sea running and torrential rains. At Lloyds said a steamer, the Valencia, bound from Antwerp to New York, was driven by the force of the wind and rain.

At Dillington ten people, of whom eight were children, had a narrow escape when part of the house collapsed and crashed into a roadway. Seaports on the eastern and southern coasts reported a heavy sea running and torrential rains. At Lloyds said a steamer, the Valencia, bound from Antwerp to New York, was driven by the force of the wind and rain.

Seattle Hoping That Great Road Is to Be Built

SEATTLE, Dec. 5.—Tremendous impetus has been given to the Seattle—Fairbanks International Highway movement by a declaration in its favor from Secretary of the Interior Hay Lyman Wilbur, received here today.

Seattle boosters of the project interpreted Secretary Wilbur's stand as a commitment and promise of administration support to the bills of Senator Charles L. McNary, of Oregon, and Delegate Dan A. Sutherland, of Alaska, now in congress. The bills provide for a joint international commission to investigate routes and costs, and report plans for co-operation between the United States and Canada.

All parties are favorable to this spectacular piece of road construction. Secretary Wilbur said, "and it is expected that the development of the work will continue."

WAGES GO UP

SEATTLE, Dec. 5.—Mayor Frank Edwards today signed an ordinance recently passed by the City Council raising Seattle street car men's pay 4 cents an hour.

The increase, approximating \$100,000 a year, will be effective on January 1.

Wilbur—Dear, I've got something I want to talk to you about. Hubby—Good! Usually you want to talk to me about something you haven't got.

COURT FOUND MYSTERY TALE IN REAL LIFE

"Shadow Burglar," Who Had Terrified London City, Proves to Be Ex-Policeman and Soldier

STATES REFUGE WAS HIS MOTIVE

LONDON, Ont., Dec. 5.—Harry Webb, ex-policeman and former member of the Grenadier Guards, pleaded guilty today to more than fifteen charges of housebreaking and robbery, one of carrying weapons and two of arson.

This makes twenty-six charges of housebreaking to which Webb has pleaded guilty. They were both remanded a week for sentence.

Webb is the self-confessed "shadow burglar" who terrorized the city for weeks and pulled off nightly jewelry and money thefts while the police were watching all parts of the city with squads of specials. Webb haunted the police station and learned where specials were to be posted, and then operated successfully elsewhere. He was caught red-handed attempting to break into a store and told the police his motive had been revenge.

He had even tried to rob Chief Robert Birrell's home on two occasions.

MR. ANSCOMB RETURNED BY ACCLAMATION

Alleges Doctor Left Sponge in Patient's Body

SEATTLE, Dec. 5.—Dr. Donald A. Trueblood, a Seattle surgeon, today was made defendant in a \$25,000 damage suit brought by Mrs. Norma Bowyer and Mr. Harry Bowyer, her husband. Mrs. Bowyer charged that Dr. Trueblood, during the course of an operation on January 28, "carelessly neglected to remove a surgical sponge from an incision he made and closed." The presence of the sponge was not discovered until after four months' illness.

MAYOR PRAISES USE-YOUR-VOTE CAMPAIGN HERE

Mr. Herbert Anscomb Hopes Gyro Club's Drive Will Result in Record Poll December 12

CO-OPERATION OF ELECTORS ASKED

Warm approval of the Victoria Gyro Club's "Use-Your-Vote" drive, in connection with the annual civic elections here next week, was expressed by Mayor Herbert Anscomb yesterday.

"I heartily endorse the 'Use-Your-Vote' campaign undertaken by the Gyro Club. If all voters would consider well at election time two things, first, the fact that they owe a duty to the city to exercise their franchise, and secondly they owe a duty to themselves to select the very best candidates offering their services for the various civic offices, we would get a great deal more interest in civic affairs than we do now," he asserted.

Mayor Anscomb said it should not be forgotten that the vote is business—that is the city's business—is the largest business in the city, and should not be lightly regarded or dealt with.

"I hope the Gyro Club will so enthrall the citizens with its 'Use-Your-Vote' campaign that the largest vote on record will be polled next Thursday, and I wish them success in their efforts." His Worship stated.

The committee of the Gyro Club, headed by School Trustee C. A. Hebbden, has been working indefatigably in its efforts to bring to the attention of the ratepayers their obligations and responsibilities as members of the community, and enlist their wholehearted co-operation in recording an unusually heavy poll on election day, which is Thursday, December 12.

First class—James Little, Michel, James A. Quinn, Cumberland; Second class—William Strang, Princeton. This class—James Baguley, Fernie; Ernest Heyes, Princeton; Arthur Hilton, Fernie; George W. Cuthell, Nanaimo; John W. Ward, Coal Creek; Archibald Hannah, Nanaimo. Mine surveyors—John A. Rutherford, Smithers; Paul E. R. Williams, Michel.

MAY PROVIDE HOME FOR ITS MINISTER

Possibility Looms That United States May Secure Location and Pay Representative Better

WASHINGTON, Dec. 5.—The possibility that the United States may very soon remedy its lack of a legation at Ottawa, and may also increase the ministerial salary, is suggested in that part of President Hoover's message to Congress where he asks more liberal appropriations for the work of the State Department.

"I know of no expenditure of public money from which a greater economic moral return can come to us than by assuring the most effective conduct of our foreign relations," the President said.

While it is not considered here that the resignation of William Phillips, first minister to the Dominion, was in any way related to the ministerial salary, it is known that the resignation was caused some annoyance by the lack of an official residence.

The Victoria Radio Club will hold its regular meeting at the Dallas Road clubhouse tonight at 8 o'clock. Important business will be transacted.

R. P. CLARK CO. WINS VERDICT

JUDGMENT IS HANDED DOWN IN SUPREME COURT AGAINST MR. S. ROBINSON

Defendant Is Held to Be Liable for Damages for Noncompletion of Share Purchase

Judgment for R. P. Clark & Company against Samuel Robinson was handed down in County Court yesterday by Judge Lammiman, in a suit brought by plaintiff for damages following refusal of defendant to complete purchase of shares which plaintiff alleged the defendant had agreed to buy. Damages were assessed at \$220 as the difference between the price of the stock at the time of the agreement to purchase and the price at the time defendant refused to take delivery.

On May 14, the plaintiff owned or controlled a good working company against which the defendant could obtain shares in the Calgary & Edmonton Corporation, Limited, and on that date defendant signed an order for purchase of shares, his Lordship had no doubt to purchase and the price at the time defendant refused to take delivery.

The defendant, the judgment continues, was based on the lapse of time which occurred between the signing of the order and the date when the shares were ready for delivery, a length of time contended to be unreasonable. "If it were a case of a broker being instructed to buy shares and he was understanding as to time, or with no warning as to delay, I think the contention of the defendant must prevail. But the circumstances are different, as will be seen from an examination of them," it is remarked. Credence is given to Arthur Fraser's evidence in effect that he warned the defendant of the likelihood of delay, and in summing up, the defence is held, on the whole, to have failed.

Mr. G. A. Downard Goes to City Temple

After eighteen years in charge of the Metropolitan Church choir of this city, a position which he relinquished in June last, Mr. G. A. Downard has undertaken charge of the City Temple choir, beginning next Sunday. Mr. Downard came to this city from Winnipeg in 1911, where he had been choirmaster of Christ Church for twenty-five years. His successor at Metropolitan Church is Mr. Fred King.

The City Temple pianist is Mrs. George Deaville, who will use a newly installed grand piano for the first time on Sunday next.

ALLEGED CANADA DISFAVORED BY U.S. MEN HERE

Declared American Owned Sawmills Buy Machinery in U.S. Against Lower Tenders of Dominion

LUMBERMEN MAKE STRONG PROTEST

OTTAWA, Dec. 5.—Charges that American-owned sawmills in British Columbia were discriminating against Canadian machinery manufacturers in favor of manufacturers in the United States and were awarding contracts to their own nationals, in spite of the fact that Canadian tenders were lower, were aired before the Tariff Advisory Board today by E. Davies, of the Vancouver Engineering Works. Mr. Davies read a brief from the Canadian Summer Iron Works, Vancouver, representing a large number of lumbering associations, and the occasion being a resumption of discussion of the revised iron and steel schedules of the customs tariff. The brief asked for an increase in the rate on sawmill machinery.

Three instances in which American operators in British Columbia rejected the lower-priced Canadian tenders and gave a preference to American machinery makers were cited by Mr. Davies.

In opposition to the Canadian Summer's request, Mr. W. B. Farris, of the Vancouver Engineering Works, said that the Tariff Board did not agree with the policies of the Government with regard to this general principle, he desired to point out that it was necessary for the lumbering industry on the West Coast to seek world markets for the sale of its products. Something over 50 per cent of the ordinary sawmill production had to be sold out of Canada, and sales had to be made in competition with operators of Washington and Oregon, who were the principal competitors.

The present Prime Minister, said Mr. Farris, has said in British Columbia that general relief would be given to the sawmilling industry. It should be taken as a basis that the primary industries of Canada must be developed.

In case the Tariff Board did not agree with the policies of the Government with regard to this general principle, he desired to point out that it was necessary for the lumbering industry on the West Coast to seek world markets for the sale of its products. Something over 50 per cent of the ordinary sawmill production had to be sold out of Canada, and sales had to be made in competition with operators of Washington and Oregon, who were the principal competitors.

The cost per 1,000 of production in Washington and Oregon was 51 cents lower than in British Columbia, where the return on investment in general was, last year, one-half of 1 per cent. It had to be remembered also that 1928 was considered a good year.

Mr. Farris presented figures to show that one-sixth of the inhabitants of British Columbia were dependent on the lumbering industry for their existence. The association he represented had an investment of over \$200,000,000. They employed 41,000 workers in 2,500 logging, sawmilling and other operations, with an annual payroll of \$50,000,000.

WANT IMPOST ON MINE MACHINES

Tariff Advisory Board Asked for Duty on Machinery Made in U.S. Unless Not Made Here

OTTAWA, Dec. 5.—Mining machinery tariff items were before the Tariff Advisory Board yesterday on the revision of iron and steel schedules. Mr. John Bain, for the Dominion Engineering Works, took the lead in a request that on mining machinery coming into Canada free of duty there should be a specification that this machinery must be of a kind or class not made in the Dominion.

Mr. J. C. Bateman, representing the Ontario Mining Association, led in the protest against this proposal. The mining business in Canada had achieved wonderful proportions, Mr. Bain declared, and the magnitude of the future development would be astounding. It was only in the interests of a sound national policy, he continued, that this development should be carried on to benefit other enterprises and labor.

TO KEEP GRADUATES

Canadian engineering firms, Mr. Bain said, should be afforded every opportunity of supplying the needs of the mining industry in this country and thereby retain our young graduates and engineers. For these and other reasons, Mr. Bain urged that mining machinery coming into Canada free of duty should be of a class or kind not manufactured here.

Mr. Bateman said considerable difficulty had been experienced with the Department of National Revenue in determining in certain cases the application of such a provision. The result of such a provision, he stated, would be that the mining industry would be penalized. One of the difficulties of some of the Canadian manufacturers, Mr. Bateman said, was that they were slow in "following suit" in metallurgical departments and a number of the machines necessary for the industry had to be imported.

The board took the recommendation under advisement.

Prince Rupert Men Dislike Suggestion

PRINCE RUPERT, Dec. 5.—A mass meeting of salmon fishermen passed a resolution unanimously protesting against the suggestion of canners that all salmon caught in any limited area be processed only in that area. Damages Are Awarded In Car Collision Case

Award of damages was handed down yesterday in the Supreme Court by Mr. Justice Gregory in the suit brought by H. B. Darnell and others against the B.C. Electric Railway Company, Limited.

At the conclusion of the trial His Lordship found that the collision upon which the suit was based had been due in equal degree to negligence on the part of H. B. Darnell, driving an automobile, and George Earl, driving a street car. The court found the damages suffered by each of the plaintiffs to be as follows: H. B. Darnell, \$800; Eva O. Darnell, \$75; T. L. Swan, \$40; Marie Swan, \$33.40; Edith Swan, \$75. H. B. Darnell was given judgment for one half the amount named in his case, and the remaining plaintiffs were each given judgment for the amounts named respectively.

MAYOR ANSCOMB'S SECOND TERM

The return by acclamation of Mayor Herbert Anson at yesterday's civic nominations is a tribute to the success he has achieved during his first year of office and to the personal popularity that he enjoys. During nearly twelve months, sublimely quiet so far as outstanding municipal issues are concerned, Mayor Anson has been an indefatigable worker. He has put in train a number of policies the beneficial effects of which will begin to be felt during the coming year. Under his regime there have been no extravagances in expenditure. He has seen to it that finances have been put in such a shape that the taxpayers have a right to expect a reduction in their obligations during 1930. The relationships between Victoria and adjoining municipalities have been established on a more friendly basis; difficulties between them have been ironed out; there is a realization that greater broad-mindedness has been injected into our municipal politics. The popular conception of Mayor Anson's abilities and fitness as the city's chief representative has been confirmed.

The Mayor, as outlined in his speech to the electors a few days ago, has a policy in the making for the improvement of exhibition accommodation at the Willows ground. In connection with this the proposal is that ice skating facilities should be established to replace the loss suffered by the city in the destruction of the Arena by fire. The Mayor, too, has plans in view for making a beginning on the civic centre site set aside on Pandora Avenue. A policy has been set in motion for the improvement of municipal playing fields, a project that appeals to all sport followers. This is to be pursued in 1930. The public interest aroused by suggestions for the development of Victoria's waterfront has found a staunch adherent in Mayor Anson, and his ability to get things done augurs favorably for the commencement of this scheme of improvement on an adequate scale and commensurate with the ideal opportunities that exist. These are but a few of the plans upon which the Mayor is working for civic betterment. In the meantime the increase of public confidence in the municipal government is reflected in the greater volume of the taxes on land collected during the present year.

Mayor Anson has energy, foresight, judgment and virile capabilities. He has inspired respect among every section of the community with which he has come in contact. In other municipalities where he has occasion from time to time to represent this city he has created an excellent impression. The citizens have in him a Mayor who is working wholeheartedly for their advancement, who is planning policies on safe and conservative lines of development and one who is giving to the full of his time and abilities in the interests of civic betterment. It is fitting in every way that the compliment should be paid to him of permitting his election for a second term of office by acclamation. There will be no regrets because of this. Mayor Anson is one of those who all the time is equipping himself better and better for public service. He believes in the policy of fortifying his understanding by experience, and this is the hall mark of success in political life.

MR. H. H. STEVENS

The prospective retirement of Mr. H. H. Stevens from Federal politics foreshadows a distinct loss to the Conservative Party in the Dominion. One of the ablest debaters in the House of Commons, a man who has informed himself in thorough fashion on politics, who has an established and growing reputation not only in his own province but throughout the Dominion, Mr. Stevens has stood in the forefront of our political life for several years past. His abilities and knowledge are such that he could not be left out of any Cabinet at Ottawa under a Conservative Prime Minister. He has, indeed, been a tower of strength to the party both during the sessions of Parliament and on the platforms of the country. His advice has been sought eagerly and followed with regularity in determining Conservative policies, and his reputation rests on secure foundations.

It will be difficult, indeed, for Vancouver city to find a representative for Ottawa of a calibre equal to that possessed by Mr. Stevens. The hope is that Mr. R. B. Bennett during the course of the next session at Ottawa will be able to persuade Mr. Stevens to change his mind and again offer himself for election. Pressure to this end will be brought to bear from every interest within the Conservative Party. Mr. Stevens, while in the height of his political prestige, is too good a man to be lost to the public affairs of the country. Every persuasion should be brought to bear to induce him to continue as an outstanding personal asset to the fortunes of the Conservative Party.

WOMEN'S HATS

The most used form of hats for women nowadays is that which is a cross between a saucer and a flower pot. It is a hat that is straight-cut, hard, unrelieved, with close-pressed lines designed to set forth the face as a cameo. It is the corollary of the present fashion of female hair cutting. When hair is cut short, permanently waved, or windblown in a beauty parlor, the tendency is for it to suffer loss of volume, both by artificial means and natural attrition. Hats, therefore, must fit more closely and the arbiters of women's fashions have never shown such a poverty of outlook in all their days than in the present monotonous, wearying and sameness of female headgear. Look in the windows of almost any woman's hat store and the style of hats set on pedestals present a uniformity that is depressing. Women in this particular, and it is to be

hoped only temporarily, have proved themselves dumb-driven cattle in the fashion mart. There is abounding hope in the heart of man that some day, in respect to the tout ensemble of their appearance, women will do themselves full justice. It is men, strange as it may seem, who so far behindhand in fashion themselves, who entertain perennial cheerfulness over feminine attire. In respect to facial setting, apart altogether from cosmetics, men believe that the female physiognomy requires a soft and shadowy setting, not a hard, unrelieved framework clamped down and close-pressed. The present-day uniformity in the style of women's hats is merciless. For one it sues it injures the appearance of thousands. The vast majority of women would look better in almost any other style of headgear. It does not matter very much how men look, but with women appearance is the ruling passion. The sheep-like obsession which affects the potted headgear of the present time is an evidence that women's emancipation from the thrall of ugly fashion has yet to be achieved.

LIBRARIES AND EDUCATION

Dr. F. Keppel, president of the Carnegie Corporation, in his address given here on the contemplated library extension in the province made two references which emphasize the importance of making this project a success. The visitor spoke of the proposed plan as something of an experiment in view of the special circumstances of the territory to be covered. It is to be looked upon as a demonstration, the success of which will not only insure repetition in other parts of British Columbia but also serve as an example to the other Canadian provinces. The British Columbia plan would command, he said, the attention of library promoters the world over.

The second reference was to the large place that the library system may play in the future in what is commonly called adult education, but which Dr. Keppel preferred to speak of as a continuing education that reaches into and through mature life. This continuing education is more and more engaging the attention of all interested in a nation's culture and a better type of citizenship. The library system is bound to be more freely used as a vehicle for such education. One of the practical applications arising out of the considerations presented would be that the provincial library system should be under the direction of the Provincial Department of Education. Then, too, the highest possible efficiency should be secured in order to translate the experiment into a great success.

The Liberal Party in Ontario is not satisfied with its leadership. The result of the recent provincial election was disheartening to the party and many of its members are inclined to blame a lack of leadership. It has now taken Mr. E. C. Drury, the former Progressive Premier, into its fold, and rumor has it that he has his eye on the leadership. The faith cure that he has prescribed for Liberals is that the liquor question should be settled by direct vote of the people. That is exactly what did happen but Mr. Drury has no faith in the people's opinion. He wants them to have another chance to see if they know their own minds.

DRYBURGH ABBEY

What scene is this that charms our eyes?
A temple of the past appears;
Each noble arch, 'neath silent skies,
Glowing with the grace of vanished years.
Oh, this calm, cloudless Autumn day
Is a shrine wherein to pray.

In silence sad, by memory thrilled,
Sir Walter's spirit remains reposed;
The mind that once his power filled,
'Mid Summer's haze or Winter's snows,
With thoughts of him, whose might has made
A Mecca of this stately shade.

Around arise majestic trees
That from dim centuries look down,
While pensile glades the wandering breeze
On one who wore a woman's crown;
And him who on war's wildest wave
Strove a great empire's soul to save.

And thus they sleep together, who
When overwhelming clouds appeared,
Rose, like the sunrise piercing through,
With hearts that neither shrank nor feared;
And they shall shine, while history gives
That light in all their greatest lives.

—David R. Williamson, in The British Field.

True joy is a serene and sober motion, and they are miserably out of that laughing for rejoicing; like the rest of us within, and there is no cheerfulness like the resolution of a brave mind, that has fortune under its feet.—Beneca.

Note and Comment

By E. B. D.

Our illustrious contemporary George Bernard Shaw says he thinks the British House of Commons has taken leave of its senses. Mr. Shaw whittles his valuable opinion down to too fine a point. He might have said that the people of Great Britain as well as their representatives in the House of Commons appear to have taken leave of their senses, and that the reason of the people of the greater part of the world appears to be tottering on its throne. The Irish playwright and wit was moved to express his opinion of the House of Commons because that institution was talking about doing something that would limit the rights of composers and authors in the products of their brains and deprive them of the legitimate profit to be derived from their works.

Mr. Shaw professes to be a Socialist in his political principles. The measure before the House of Commons is a Socialist measure and the House of Commons is at present controlled by a Socialist Government. The Government through the House of Commons has announced that before its programme of social reform is completed many measures will be proposed that will limit the rights of private property and affect the rights of capital. One measure already has been proposed for the expropriation of all the transportation systems serving the great City of London and the operation of them as a Government utility. Mr. Shaw will not protest against that measure and declare it is an indication that the House of Commons has taken leave of its senses. Yet the rights of property possessed by the shareholders in the London transportation systems should be considered just as sacred as the rights of the illustrious Socialist in principle, George Bernard Shaw. In his plays, his books and his songs (if any). Up to a certain point Mr. Shaw believes there should be no rights in private property; but when the House of Commons goes beyond that point and purposes trenching upon the rights of private property hitherto possessed by Mr. Shaw, then Mr. Shaw says the House of Commons appears to be crazy. In the abstract Mr. Shaw is a Socialist. In the concrete Mr. Shaw as a keen and successful business man and author of great wealth is opposed to the application of the principles of Socialism.

If the Socialist Government of Great Britain remains in power long enough to make a general application of its economic principles, after it has expropriated the London transportation systems it will proceed to expropriate the railway systems and the coal mines and to operate them as Government utilities. Those will be great but doubtful experiments, and some people may say that the House of Commons which sanctions them has taken leave of its senses; but George Bernard Shaw as a Socialist in principle probably will say that the doubtful measures are evidence of the complete sanity of the House of Commons.

Like the British Government which he supports and the House of Commons which he helped to elect, Mr. Shaw is an admirer of the Soviet Government of Russia. The Russian Government has abolished all rights of private property. The Russian Government also has abolished the Diet and is attempting to suppress the Christian religion. Common people of limited intellect may say after reading about the existing conditions in Russia that the Soviet Government in abolishing God and attempting to suppress the faith of the people in the Christian religion has extinguished a great light and left the people of Russia groping in gross darkness.

The little children in the parts of the world which have not yet been forcibly converted to the principles of Socialism are looking forward joyfully to the Christmas season and the arrival of that most cheerful of all gifts of good things, Santa Claus. There are no saints left in Russia. They have all been suppressed as ruthlessly as the late Royal Family. The children of Russia therefore have nothing to look forward to during the season when all who are children in years as well as in heart will be listening to the renewed proclamation of glad tidings. There will be no singing of Christmas hymns in the churches of Russia if the Soviet Government can prevent such expressions of superstition. Life in Russia, according to the correspondent we quoted yesterday, has become hopelessly dull, drab and dreary. The only cheerful people left in the country are the prisoners in the jails, who have nothing to worry about.

for they have roofs over their heads, beds to sleep in and food to eat, and at stated intervals are given holidays for the purpose of visiting their families—if they care to acknowledge such obsolete institutions as family relationships. The convicts of Russia are care free and happy because in their case the law has taken them in its care and freed them from the vexatious restrictions of the Government. Is it any wonder that the professed admirers of Soviet political principles prefer to admit the working of those principles from as great a distance as possible?

"PUBLICITY AND HEALTH"

Sir,—A few days ago I asked neighbors for the loan of a guide map of Victoria. Beyond the Narrows there awaits an awe-inspiring view of Rocky Mountain topography.

ters engaged in a mission such as that which now finds its members pursuing their several ways homeward after having attended one of the most memorable conferences that have yet emanated from our much-lauded League of Nations. I refer to the recent gathering of the International Joint Commission at Kyoto, held with a view to improving mutual relations between the great nations of the Pacific seaboard, not the least among whom looms this new Canada of ours, destined to fulfill in the not very distant future a much more spectacular role than she has essayed in the past.

Permit me to point out that this morning's Colonist (Tuesday, December 3) alludes to the berthing of the Empress of Canada from Japan with a number of the re-elected delegates to the above convention, known as a round-table conference, among whom were cited the Hon. Newton Rowell and Mr. Tom Moore. Also prominent among the passengers were Mrs. Woodrow Wilson "who would not say anything regarding the countries she had been visiting" (wise Virginian) and a Mr. and Mrs. A. E. Phillips, also of Virginia.

Nowhere did I see mention of our distinguished fellow Canadian citizen, Mr. Lawrence J. Burpee, one of twenty-two delegates duly accredited and appointed by the Canadian branch of the Royal Institute of International Affairs in London, who, despite his arduous duties, and whatever weariness of the flesh he may have felt as the result of his long travels, took occasion while en route to Ottawa to regale Victorians with the first detailed statement of the aforementioned conference, held on behalf of Pacific Relations.

Presumably we owe this happy chance to our enterprising clerk, Dr. Clem Davies, who Sunday evening waived his claim to the pulpit of the City Temple and generously invited Mr. Burpee to voice his impressions of the Kyoto convention, which comprised a frank resume of the method of handling vexatious and threatening issues that arise between nations and peoples of various agglomerations.

MUCH ADO ABOUT NOTHING
Sir,—I appreciated the splendid account of this play which appeared in The Daily Colonist, on Tuesday, and, while I heartily agreed with the praise bestowed on the whole production, I was very glad that special mention was made of Mrs. Roy Byford and Mr. Kenneth Wickstead, as they were particularly convincing. I was, however, sorry that Mr. Crombie was not included in the tribute paid to them. The effect of a play largely depends on the way the words are spoken, and in the case of Mrs. Byford and Mr. Wickstead, as they were particularly convincing, I was, however, sorry that Mr. Crombie was not included in the tribute paid to them.

THE CANADIAN BIBLE SOCIETY
I venture to hope that through the hospitality of your paper, you will allow me, as president of the local auxiliary, to make at this time a brief appeal to my fellow Christians in the city, to support the Canadian Bible Society. I am doing so for two reasons—One, on Sunday, December 8, many of our congregations will be hearing something about its work and claims; two, the year is drawing swiftly to its close, and at the end of this month our local treasurer will send into headquarters whatever sum Victoria has contributed to the Dominion fund offering of \$100,000.

THE CANADIAN BIBLE SOCIETY
The Bible Society is celebrating this year its 125th birthday, and the Canadian Bible Society its twenty-fifth birthday. Hence the special thank offering. Towards this, British Columbia is asked to give \$10,000—Victoria, \$5,000 of this sum, and Victoria, \$5,000.

Jots From Geography

THE Narrows, in William's Canyon, near Colorado Springs, Colorado, is so called for the reason that the walls of the canyon nearly touch. There is not room for two people to pass at this point. Beyond the Narrows there awaits an awe-inspiring view of Rocky Mountain topography.

The Rhyming Optimist

By Aline Michals

TRIUMPHS
Life is bright with banners
Moving gaily by,
Touched with many triumphs
For the speeding eye.

Gone the splendid pageants
Of a bygone age,
Set to stately measures
For a waiting stage.

But brave moments greet us
In each life's high days,
Like the leaping leaf fires
Seen through Autumn's haze.

It may be a welcome
Warm with love's dear dowers,
It may be soft music
After silent hours.

Vague are thoughts regretful,
Dried are idle tears,
Touched with gleams of triumph
Pass the days and years!

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of December 6, 1879)
The grand opening of St. Charles' Hall will take place this evening. A collation took place yesterday morning between the steamers William G. Hunt and Interlake as they were leaving the harbor for New Westminster. Three staid glass windows now beautify the church of St. Charles' Church. The highest window at the east end is remarkably fine.

BUS PROBLEM IN ESQUIMALT IS CONSIDERED

Council Is Anxious to Secure Undertaking From B.C. Electric Railway Before Proceeding

CANVASS FRANCHISE RIGHTS IN TOWNSHIP

After transportation enactments influencing the Township of Esquimalt from the year 1889 to 1926 had been dealt with from every possible angle, it was considered at a special meeting of the Esquimalt council yesterday morning that as it was not authorized by the Municipal Act to grant a franchise to any company or individual for the operation of buses in the district, the council determined first to secure more information.

After listening to the various opinions of the councillors, the council adopted a motion unanimously that the municipal clerk, Mr. G. H. Pullen, get in touch with the British Columbia Electric Railway company, requesting it to forward all data regarding its intentions. Councillor Alexander Lockie, president of the council, said he thought this was the best plan in sight. Councillor W. J. Cox seconded it.

In looking back over the laws it was found that the British Columbia Electric Railway company, through its amalgamation with the National Electric & Transportation Company, Limited, has the privilege to operate either street cars or buses in the municipality.

Immediately, Mr. Gerald H. Sedger, municipal solicitor, who was present, stated that while the city had adopted certain laws forbidding buses to travel on the same thoroughfares as street cars, Esquimalt has no guiding principles.

"How much power has the city of Victoria in Esquimalt? This was a query by Mr. Sedger to the council. "They have no more power than the King of Siam," he answered, the answer coming from Councillor Lockie.

POWER REGULATION

Reeve James Elrick raised the point as to the right of the city of Victoria prohibiting bus firms from picking up passengers on city streets unless they were traveling a distance of a mile and a quarter into the adjoining district.

"Irrespective of the distance from the city, the city of Victoria has the right to stop buses from taking passengers on as soon as the coaches reach Esquimalt. The city of Victoria could pass no legislation forbidding this," the reeve stated.

Councillor Cox remarked that the British Columbia Electric Railway company had not communicated with the council on this subject. He stated on a bus franchise in the municipality. Reeve Elrick said he had been in touch with Mr. A. T. Goward, vice-president of the company, and that the latter stated that the British Columbia Electric Railway was deeply interested in any proposition that might be put forward, and that they might get the bus system a trial in Esquimalt.

AVAILABLE RIGHTS

When the question of giving the franchise to any one particular company came up for discussion it was quickly checked by the municipal solicitor when he asserted that owing to the wording of the Municipal Act, Esquimalt had power to forbid coaches running through the district, or else permit every company to operate on an equal basis.

Do the people want a bus service in preference to the street car? This question was raised by the reeve, and it was suggested that the question be put before the people as a referendum at the election, which would be held in the month of May. When the question of which route would be used, the reeve stated that no corporation in the world would operate on a street car except Esquimalt Road.

Councillor Albert Heald, in voicing his opinion, stated that a new mode of transportation was needed in Esquimalt for the street car service was far from satisfactory to the residents.

Engine G. H. Bourne was called in when the reeve brought up the matter of the cost of Esquimalt Road if the street car tracks were removed. Mr. Bourne said the road, if it was put in good shape, would cost between \$15,000 and \$20,000, as it would need leveling off and resurfacing.

Previous to the adjournment of the meeting Mr. J. B. H. Matson, of the Vancouver Island Coach Lines, was called in to give his opinion on the bus situation.

Mr. Matson stated that before he could make any statement he would have to be advised on what projects the municipality would be undertaking to guarantee. It would be foolish for any company to start a bus service in the district without first being advised of all data regarding the conditions, he said.

Pelts Come in Well—Up to noon yesterday more than 100 outstanding fox skins had been entered for the forthcoming fox show at the Willows next week. Mr. D. M. McDonald, the superintendent, is arranging for an exhibit to be insured. The donation of prizes has surprised the committee.

Towed Into Port—With her engines in a crippled condition, the British Columbia Cement Company's 165-foot motorship Island King was towed yesterday to Yarrow by the Victoria Tug Company's tug Spray yesterday afternoon. In command of Capt. F. Main, the Island King arrived at Brentwood on November 19 after having taken ten months to come from Southampton, owing to frequent engine trouble.

Gathering Data for Emergency—If the B.C. Electric Railway on the mainland, owing to the power shortage, should be forced to apply to Vancouver Island points for motor buses, a list of reserve equipment will be ready. Mr. A. T. Goward, vice-president, said yesterday. The many couples glided over the spacious floor to the strains of music furnished by a five-piece orchestra, directed by Mr. George Ozard.

Opens Municipal Hall—Hon. N. S. Loughheed, Minister of Public Works, returned to the capital yesterday morning after having officiated at the opening of a municipal hall at Mission, which is to serve the dual purpose of being headquarters for the village of Mission, and for the Municipality of Mission. The minister, after having taken the oath of office, was escorted to the hall by a band of the Victoria Police.

Drought Threat To Salmon Says Fishery Expert
SEATTLE, Dec. 5.—Drought is imperiling the fish industry of the Pacific Northwest in addition to causing a power shortage, according to Charles E. Pollock, State Supervisor of Fisheries, declared here today.

Mr. Pollock said that salmon need the impetus of fresh water from Fall freshets to arouse them to ascend streams to spawning grounds. With the absence of the usual fall freshets, he said, the salmon are schooling at the mouths of streams and failing to ascend. Eggs washed in salt water are lost, he said.

GET-TOGETHER

SOCIAL PROVES GREAT SUCCESS

Over 300 Former Pupils and Teachers of Boys' Central School Attend Dance and Card Tourney

MR. W. G. CAMERON RECEIVES HONOR

The get-together social of former pupils, and present and past teachers of the Boys' Central School, which was held last night in the auditorium of the new Shrine Temple, View Street, proved an unqualified success. Over 300 participated in the entertainment, and judging by the enjoyable character of the fete, it is probable a similar function will be staged in the near future.

Former pupils of the Boys' Central who attended the institution in the early sixties, mingled with those who were students at the school in later years, and all became thoroughly acquainted with one another. On every side were expressions of anticipation of the Boys' Central big reunion rally, which will be held in connection with the May 24 celebration next year.

Dancing was one of the principal forms of diversion, and the many couples glided over the spacious floor to the strains of music furnished by a five-piece orchestra, directed by Mr. George Ozard.

Mr. W. G. Cameron, former alderman of the city, was given the special prize for being the oldest schoolboy present at the function, the recipient having attended the Boys' Central in 1862. The presentation of the award was made by Mr. Herbert Kent, who officiated as master of ceremonies.

CARD TOURNAMENT
Mr. J. Nelson was the winner of the lady's prize in the court whist tournament, and Mr. A. B. McNeill won the gentlemen's award.

The proceeds of the social will be used in carrying on arrangements for the big reunion here in May. Those who attended the fete included Magistrate George Jay, chairman of the reunion organization, and Mrs. Jay, Hon. Joshua Hinchcliffe and Mrs. Hinchcliffe, Alderman John A. Worthington, Dr. and Mrs. S. J. Willis and Mr. Phil Willis, Mr. and Mrs. J. D. Willis, Colonel W. N. and Mrs. Winlay, Mr. and Mrs. W. G. Cameron, Mr. and Mrs. Charles Gardner, Mr. and Mrs. Harold Fleming, Mr. and Mrs. Ernest Butterworth, Mr. and Mrs. Walter M. Walker, Mr. and Mrs. Fred M. McGregor, Mr. and Mrs. Herbert Kent, Mr. W. H. Jury's Verdict Is Accidental Death

DUNCAN, Dec. 5.—Death by unavoidable accident while employed by the Island Logging Company was the verdict returned by a coroner's jury investigating the circumstances surrounding the death of E. Nylund and A. Helia, loggers, at Camp No. 3, Cowichan Lake, who were killed on Tuesday afternoon by a sliding log. The inquest was held at Whidden's Funeral Parlors, with Dr. H. P. Swan presiding.

A man ran away with the wife of a neighbor. The local clergyman called upon the deserted husband to sympathize with him, but the man seemed singularly cheerful considering the nature of his loss.

"It's too bad; too bad!" said the clergyman, "I understand that the man who persuaded your wife to elope with him was your best friend."

The husband smiled.

"Yes," he said, "he was—and he is!"

Unc' Billy Has a Feast

—By THORNTON W. BURGESS

Who would be master of his fate Is patient and content to wait.

—Unc' Billy Possum.

Unc' Billy Possum was safe and he knew it. He was on a beam underneath Farmer Brown's barn, safe from Flip. "All Ah has to do now," said Unc' Billy to himself, "is to stay right here until that silly dog done grow tired of hearing his own voice. Then he'll go away and Ah'll do the same thing." This is just what happened. Flip did grow tired. He would leave Unc' Billy and go out and see if Farmer Brown's boy was coming. Then he would go back and bark some more. Farmer Brown's boy had no intention of crawling under that barn, so Unc' Billy curled up and took a nap and finally Flip gave up.

Unc' Billy was wise enough to remain right where he was all the rest of that day. Two or three times Flip came back to see if he was still there. He was, but he showed no signs of life so Flip speedily lost interest.

It was just after dark that Unc' Billy poked his sharp nose out from under the barn. A sharp, shrewd little face was Unc' Billy Possum. Unc' Billy looked this way and that way. He saw no one and he was sure that no one saw him. He stole along up to the door that the cows used. It was ajar. He poked his nose inside and pushed it open a little more. Unc' Billy grinned. It was a long time since yesterday. He made his way along to the stairs that led up to the haymow. He went up. He knew he was safe now. He knew that he could hide under that

It was the best dinner he had had for a long time and he was perfectly happy

hay anywhere. He didn't have the least bit of worry about being caught now.

"Ah wonder if any of those hens lays up here now," thought Unc' Billy. "Ah reckon Ah'll have a good look anyhow. Mah goodness, wouldn't Ah like some nice eggs!"

Now, it happened that one of Farmer Brown's pullets was laying up in the haymow and Farmer Brown's boy didn't know it. No, sir, he hadn't discovered that that pullet was slipping away every day when the hens were let out in the yard. But that was all right. In the hay up in a corner of the mow she had already laid seven nice eggs. Unc' Billy found them. You should have seen the grin on the old possum's face when he discovered those seven eggs. He couldn't think of a single thing that he wanted more than he wanted eggs. He wouldn't have traded those eggs for a fat chicken, and that is saying a good deal. So it was that up there in the haymow Unc' Billy Possum had a feast. Yes, sir, he had a feast. It was the best dinner he had had for a long time and he was perfectly happy.

It didn't occur to Unc' Billy that he was stealing those eggs. To his mind, he wasn't stealing them at all. He felt that they were his by right because he was smart enough to find them. So his conscience didn't trouble him the least bit when he ate those seven eggs. But, having eaten the eggs, he suddenly decided that, in spite of the fact that he had slept all day, he would take another nap. He had too full a stomach to be travelling around. So he poked around in the hay until he finally found just the place that suited him and then he curled up there.

"Ah reckon this would be a good place to spend the winter," muttered Unc' Billy. "Yes, ah, Ah reckon this would be a good place to spend the winter."

The next story, "Black Pussy Has a Fight."

Marries Hospital Nurse

SOCIETY has just received word of the latest case in the epidemic of rich men marrying poor girls. Wealthy Van Duzer Burton, ex-nuptial of Sir Ashley Sparks, managing director of the Cunard fleet, has secretly married his nurse, Miss Charlotte R. Rhodes. The romance began when Burton was a patient in Union Memorial Hospital, Baltimore, under the care of the young nurse.

China Shower

Miss Helen Richards, a bride-elect, was the guest of honor recently at a china shower at the home of the Misses Winnie and Kathleen Knapton. The gifts were concealed in a prettily decorated horn-of-plenty. The evening was spent with various games, and later a buffet supper was served. Those present were Mesdames C. Richard, Baker, G. Fox, M. Garland, C. Brown, Forrester, H. Duncan, E. Knapton, and Misses Helen Richards, Winnie Warburton, Violet Brakes, Minnie Baker, Lillian Stewart, Emily Warburton, Betty Hamilton, Winnie Ferriman, Evelyn Warburton, Gladys Barlow and Winnie and Kathleen Knapton.

Fashion Fancies

By Marie Belmont

The beginning of many new fabric fads is seen in the finish. The truth is not nearly as ambiguous as the statement would indicate, for suede-finished woollen offers one example of a fabric that is already embarked upon a season of popularity.

The stylish mien of the model pictured above, of deep chocolate brown suede, is evidence of its smart standing. That the fabric is keeping fashionable company is seen in the chic companion it has made of silver lapin scarf collar, muff and bordered cape.

Our Dolls Have Gone Upstairs

The great big family of Dolls will be found on the Second Floor this morning. They will have left the aeroplanes and the electric trains and gone where they can see the pretty hats and flowers in the Millinery Section. On the Second Floor there will be more room for the little girl to find among the many beauties that particular dolly which she feels she can love for ever and ever. Then she can take the elevator down to Toytown and tell Santa all about it. Don't forget this wonderful Doll Show. Now we will mention a few from among the many that are to be seen.

the Dominion Theatre today and Saturday only. His complete regeneration is accomplished at the end of the picture in one of the most spectacular climaxes ever screened, when he leads a mighty corps of mounted police officers in pursuit of his old gang.

COLUMBIA Surrounded by an excellent cast and with a story ideally suited to him, Hoot Gibson, Universal's irrepressible cowboy-romance, is now at the Columbia Theatre in "Smilin' Johnnie." The picture, in which the lovable Hoot portrays a reckless and devil-may-care cowboy, who suddenly decides to become a polished gentleman, is a typical Hoot Gibson production, replete with hilarity, drama and action.

PLAYHOUSE Lothar Mendes, who has been making a name for himself in the same studios in that country which produced the masterful Ernest Lubitsch. His first production is "The Prince of Tempers," with Ben Lyon, Lola Moran, Mary Brian and Lya De Putti.

CAPITOL Although Louis Joseph Vance wrote "The Brass Bowl" many years ago, the story is as delightful as ever; a fact proved by the enthusiastic reception given to its all-talking screen version, "Masquerade," last night at the Capitol Theatre. This Fox Movietone picture is packed full of romance and adventure, treated in an entertaining manner, and with splendid work on the part of the players and the director.

Fuzzy-Wuzzy Makes Screen Appearance at Capitol Next Week

Turned into screen actors for the first time, thousands of the "Fuzzy Wuzzys" made famous in song and story by Rudyard Kipling play an important part in the film adventure story, "The Four Feathers."

The home of these aborigines is Northeastern Africa, along the shores of the Red Sea and on the western side of the Red Sea Hills. They formed the shock troops of the army of 200,000 Dervishes, who staged an uprising during the latter years of the nineteenth century and caused the British to withdraw from that portion of the desert continent for more than twelve years.

In "The Four Feathers," these Fuzzys, whose fathers fought and fell when opposed to the British and Egyptian troops in 1883-1885 and again in 1898, form the chief menace. Included in the notable cast in the screen version of this famous story from the pen of A. E. W. Mason, which comes to the Capitol for a six-day run, beginning on Monday, are Richard Arlen, Fay Wray, Clive Brook, William Powell, Noah Beery, Theodore von Eltz, George Pawcett, E. J. Ratelle, Noble Johnson and others.

SANCTUARIES ALREADY COVER TWO RESERVES

Proposal for Elk Lake Is
Already Covered by
Order-in-Council Passed
in 1918

SIMILAR PROTECTION FOR MT. DOUGLAS

In the effort that is proposed to protect game birds in and about Elk Lake, there is evidently forgotten the fact that a game preserve and bird sanctuary exists at the present time covering Elk and Beaver Lakes, and that part of the watershed owned by the city.

This information is furnished by Mr. Francis Kernode, the curator of the provincial museum, and one who is intensely interested in the preservation of wild life in the province.

It was recalled by Mr. Kernode that on September 6, 1918, a game preserve and bird sanctuary was created to cover the area referred to and at the same time a similar course was taken to embrace Mount Douglas Park.

Under the Game Act any dog running at large in the areas referred to may be killed by any constable or game warden, and constable is interpreted in the broad sense of including not only provincial police but municipal and other classes of police officers. It is there fore evident that the authorities have at the present time all the legislation that is required to afford protection to game in the areas referred to.

The matter is very clearly recalled by Mr. Kernode, who points out that when the order-in-council was passed he was active in the move as an officer of the Game Club. May 1, 1918, of that day, aided in the securing of the necessary regulations.

The area of the preserve at the lakes is given approximately as 1,015 acres, while that at Mount Douglas is placed at 350 acres.

Poor Goller: "Well, how do you like my game?"
Caddie: "I suppose it's all right, but I still prefer golf."

Heroes at Dinner as Seen by Cartoonist

THE caricatures reproduced here are by Norman Edwards, English press artist, of well-known Canadian V.C.'s and other noted personages, as they appeared while attending the Prince of Wales' reunion dinner in London recently, for holders of the Victoria Cross. In the top row, from left to right, are shown Capt. Kerr, V.C., of the Toronto Regiment; Lord Greenwood, who told how he ran away from school to join the Canadian forces; Tommy Holmes, V.C., of Toronto, youngest V.C. from Canada; and Capt. Geary, V.C., who served in the East Surrey Regiment, but is now in the insurance business in Toronto. Bottom row, left to right: Lieut.-Col. Peakes, V.C., of the General Staff of the Royal Military College, Kingston, who made a very clever speech on behalf of Canadian V.C.'s; Major Gregg, V.C., an autograph hunter at H.R.H. Prince Arthur of Connaught's table; Col. Bishop, V.C., noted war flyer, who autographed original Star sketch drawn of Canadian Expeditionary Force dinner; and Capt. Mitchell, V.C., of Montreal.

I.O.D.E. Members Pass Resolution
Protecting Makers of Armistice
Day Emblems

At the meeting of the Lady Douglas Chapter, I.O.D.E., held yesterday afternoon at Municipal Headquarters a resolution was passed endorsing the action of the Great War Veterans' Branch, Canadian Legion, of Vancouver, in protesting against the importation and sale of foreign-made poppies from Germany and Japan competing with the poppies made by the veterans.

The chapter voted contributions to the Christmas hamper to be sent out by Municipal Chapter, I.O.D.E., also for smokes for War Veterans' Associations. A contribution was also made to the testimonial to be presented to Mrs. Julia Drummond on behalf of the Guild of Empire.

Miss Josephine Crease reported on the Christmas cheer hamper that were sent to Rolla, B.C., by the provincial chapter, to which a contribution was sent. Mrs. E. C. Hayward reported the pleasure with which the chapter's gifts of books, to mark Armistice Day, were received by the Sir James Douglas and Burnside Schools.

The report of Municipal Chapter was brought in by Mrs. A. M. Boyd.

and the Lady Douglas Chapter expressed itself in favor of a provincial bursary as a memorial to the late Mrs. Henry Croft. Appreciation of the delightful musical programme given by members of the Commodore Broughton Chapter at the Lady Douglas Chapter's commemoration of the birthday of British Columbia on November 19 was expressed by the regent, Mrs. R. B. McMicking. The address given by Mr. Hosie was specially commended and thanks expressed to Mr. F. B. Pemberton for acting as chairman at short notice.

The chapter expressed willingness to assist the Municipal Chapter, I.O.D.E., in arrangements being made to act as hostesses for the C.P.R. at the opening tea, to be given at the Empress Hotel on Saturday, December 21.

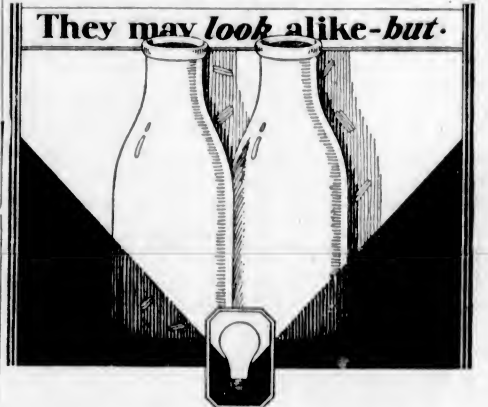

A very interesting report of the work of the past year at the Connaught Seaman's Institute was read, and the splendid work of the Ladies' Guild was highly commended.

Two young men had been behaving in a disorderly manner at a Revivalist meeting, and the misbehavior asked them:

"Why did you come to this meeting?"

"To see miracles performed," answered one of them.

"Whereupon they were summarily ejected. 'We don't perform miracles,' explained the misleader, 'but we cast out devils!'

TELEPHONE CHANGE

KAMLOOPS.—The government telegraph-telephone service in the Kamloops-Okanagan and Golden-Fort Steel districts came to an actual end on Saturday when the superintendent's office here was closed. In all the government has transferred approximately 1,800 miles of pole lines and 4,000 miles of wire to the B.C. Telephone Company. The entire staffs, with one or two exceptions, have been taken over by the company and absorbed into its organization.

ROSSLAND'S WATER SHORTAGE

ROSSLAND.—The main topic of discussion before the council when that body met in regular session, was the possible shortage of water facing the city. With no snow at all in the mountains, and no rains since early in Summer, the water situation is serious, and the council at the meeting took steps to avoid a complete curtailment of water to consumers. To insure every portion of the city being supplied with water, and at the same time to build up a reserve for fire protection, the water will be turned on in different portions of the city for one hour a day, so as to relieve the situation in homes.

NICKEL PLATE MINE

PRINCETON.—The end of the season precipitated by the cold snap and lack of water for power supply, Nickel Plate Mine on Saturday suspended all operations until March. The closing this year is two days later than a year ago. The Hedley Gold Mining Company has experienced a fairly successful season, not so much in ore taken out, but in leading up-work. The oldest operation in the Similkamen and at one time a very lucrative property, Nickel Plate has of late years been, as far as each season measured separately goes, a losing proposition. It is felt, however, that there is still considerable life for the property, and each year's operations are but a chapter of a bigger work.

TRAIL GETS AIRPORT

TRAIL.—Authority has been given the city clerk to sign a lease with the Consolidated Mining & Smelting Company for four blocks of land at Columbia Gardens, to be used as a civic airport. The lease provides for a yearly rental of \$125 and that in the event of the company terminating the lease, the city for expenditures on the land. The field is now, it is said, in shape for planes to land.

MEANING OF CLAUSE IN LAW IS DISPUTED

Gudder Singh, Charged With Obstructing C.N.R., Is to Be Sent Up for Trial

Gudder Singh appeared in the Saanich police court yesterday afternoon to answer to a charge of having by his act or wilful omission obstructed a railway. Magistrate George Jay declined to adjudicate upon the point of law which was the principal issue between the prosecution and the defence, and decided to send the case up for trial in the higher court.

At about 7:45 on the evening of November 26, the driver of a motor coach on the Canadian National Railway, on coming round a curve, saw just in front of him a truck standing on the Tillamook Road, with the rear end dangerously close to the track. Brakes were applied but before the coach could be stopped it had passed the truck, and in doing so grazed the latter, certain minor equipment being stripped from the side of the coach.

Witnesses for the defence said that Gunner Singh had just crossed the track when his car stuck, that he had gone to Mr. Hayne, nearby, and asked for his assistance in moving the truck away from the tracks, that the attempt was made and failed, and that Mr. Hayne with Gunner Singh had then driven in the former's car to a garage and

had a service car sent to haul the truck away. During their absence the accident had occurred.

THE POINT OF LAW

Mr. F. C. Elliott, for the accused, said that it was evident that his client had no intention to obstruct the railway, and that he had done everything possible to remove the obstruction accidentally caused. The provision in the Criminal Code, under which the charge was laid, applied, he contended, only to intentional obstruction.

Municipal Prosecutor E. L. Tait pointed to the danger to life and property involved in an obstruction on a railway track. The accused should have remained at the scene to warn approaching trains or have made some other provision for this. The Criminal Code, in the section referred to, did not require that the act causing an obstruction should be wilful and intentional. The words were "act, or wilful omission," the act might not be wilful and yet come under the section.

Magistrate Jay considered that the interpretation of the clause, the meaning of which was in dispute, should go to another court, and accordingly decided that the accused should be committed for trial.

Lt.-Col. L. R. Lafleche,
Who Heads Canadian

Manager

ENLISTED AT THE OUTBREAK OF WAR

By WILFRID EGGLESTON
(Copyright, 1929)
OTTAWA, Dec. 5.—The election of Lt.-Col. L. R. Lafleche as president of the Canadian Legion to succeed General Sir Arthur Currie has met with enthusiastic approval, nowhere warmer than here at Ottawa, where he lives and is known best.

Colonel Lafleche assumes peace-time command of an army of 65,000 soldiers, members of the Canadian Legion, comprising with their wives and families perhaps the most potent force in the Dominion in the interests of disarmament and national goodwill.

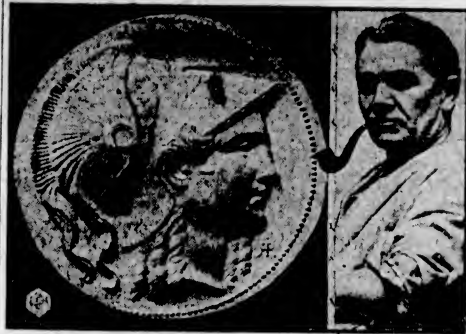

Who is this Colonel Lafleche? Ottawa Legionnaires are quick to inform you—a Canadian whose bearings came to New France nearly three centuries ago. A bank manager who enlisted in the first month of the war. A war veteran who suffered grievous wounds in the battle at Mount Sorel, and whose life was often despaired of in the long hospital months that followed. The organizer and commander of District Depot No. 4. The demobilizer of 65,000 soldiers, the same number as he commands today. After the war, examiner of the Board of Commerce for Quebec. Today, secretary of the Government Contract Supply Commission, and a zealous organizer for the Canadian Legion.

The best traditions of the French race in Canada, coupled with a loyal and sturdy Canadianism live in him, say his friends. Gallic grace and wit blend with breadth of vision and tolerance.

With this leader the Canadian Legion will continue its present sane constructive path, say those who know him. They recall his broadcast Armistice speech at St. Thomas.

"Members of the Legion want to be the best citizens in peace time as they were the foremost in defence of King and country in war time," he said. "They wish to live up to the highest ideals of British subjects and Canadian citizens. Their ideals of duty to King and country do not recognize as wise or better the doctrines of Communism or ex-

Recognize Fine Arts Aid

Mr. Robert Altin, well-known sculptor, right, is here seen with the gold medal which he has designed for the National Academy of Design and which is to be presented to Elithu Root, former Secretary of State, in recognition of his distinguished services to the fine arts. Mr. Root will be the first recipient of the new decoration, which will be known as the President's Gold Medal and which will be presented from time to time to anyone who has made notable contribution to the cause of fine art.

GRAIN SCREENINGS ARE SUBJECT OF REFERENCE TO COMMITTEE

Recommend Transfer of Fur Farming to Department of Agriculture

The Advisory Board of the Farmers' Institutes for the Province is nearing the conclusion of its work. It is anticipated that it will finish its sessions today, perhaps disposing of the last of the resolutions from the different districts.

Yesterday the report of the special committee on incorporation, through the chairman of that body, Mr. J. Y. Copeman, was placed before the meeting and discussed at considerable length. No definite action was taken on the report, awaiting further consideration of the subject before the conclusion of the meetings.

WEED CONTROL

The importance of weed eradication and the guarding against the introduction of new weeds was stressed in a discussion which took place yesterday afternoon in connection with the matter of weed seed in screenings and methods of dealing with these latter was the subject of consideration in which the Deputy Minister of Agriculture, Mr. J. B. Munro, took part. This is something upon which the Deputy Minister feels very keenly and he is making an effort to arouse greater interest in the weed prevention campaign in the province.

GRAIN SCREENINGS

The subject of amendments to the act covering screenings was discussed by the meeting and a committee was appointed to meet Mr. C. Tice, agronomist of the department and Inspector Lyne, of the Federal department at Vancouver and go into the subject.

Another resolution which passed the board was in favor of amending the regulations governing the purchase of land so that intending purchasers of land up to 160 acres need

A discussion among the members covering the question of the best methods to adopt to raise funds for the Central Institutes was managed by mail. In this connection the methods that were now in vogue in the different districts were spoken of with the idea of arriving at a uniform method that would be the best to adopt generally.

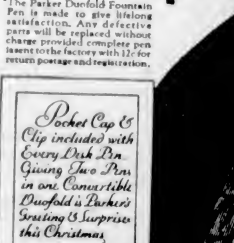

Reports from the various members of the board as to the progress which had taken place in each of these proved very interesting and beneficial. It was found that there was general progress in all districts.

Mr. T. Abriel, for the fruit growers, reported also for his association.

A resolution asking for the placing of the control of fur farming under the administration of the Department of Agriculture instead of having it under the Game Act, was before the board, and carried. It was set out that fur farming was now really as much a branch of farming as were many of the other divisions connected with the Live Stock Department.

They were sitting together. She was English, he was French. He drew her closer to him and whispered: "Je t'adore." "Not likely," she said, indignantly; "you shut it yourself!"

Pocket Cap & Clip included with Every Desk Pen Giving Two Pens in one Convertible Duofold & Surprises this Christmas

Obtainable only in Parker Pens and Pencils is this beautiful, symmetrical Streamline shape; also a Pocket Cap and Clip now included with every Desk Set Pen. This combination makes 2 pens of one—for pocket—for desk.

Parker originated this double-duty feature—no other pen is convertible. Screwing on a tapered end transforms it to a Desk Pen. Removing the taper restores it to a Pocket Pen.

Thus those who give Parker Desk Sets will give a Pocket Duofold, too; and those who give Parker Pocket Pens alone will be giving also half of a Desk Set. To have a desk set later their loved one need get only a base and taper.

No other pens and pencils set so low or look so neat in the pocket. The clip starts—not halfway down the cap—but at the tip! Pressureless Point, Non-breakable Permanent Barrel, 24% greater ink capacity than average, size for size, and "guaranteed against all defects."

Rhoda, A Red-Headed Girl

by Henry Mitchell Webster

CHAPTER XXIX

When Rhoda really waked up the next morning—rather a long process after an unusually solid night's sleep—she felt very odd and sensible. She didn't precisely regret her childish terror of the night before, since it had brought out once more what an ace Martin was. She didn't believe he liked her less for it, either. He was like that. He understood things. But her line with him, when he came this morning to take her down to the station and get the trunk, must be one of sturdy common sense. Above all she must let him see instantly that she took their pretended engagement as a brilliant manoeuvre for outwitting Uncle William, and nothing else. It would be terrible if he were left to think for a single minute that she thought that he meant it seriously. But when 10 o'clock passed without bringing him, she began getting cross. Had he just gone off to work as usual and forgotten all about her? At half-past nine she stopped being cross and began to be frightened. Had Uncle William done some horrible thing to him to get him out of the way? Or Claire? Or Max? Lewis, or Conley? He'd been making formidable enemies in her cause, hand over fist, during the last twenty-four hours.

When finally she heard a step she thought was his come bounding up the studio stairs and had darted to the door and flung it open, she was so glad to see him intact that her eyes filled up with silly tears again and she was in his arms before she knew it. Thus a carefully planned effect went all to smash.

But, by and by, Martin made a confession. "I'd fully made up my mind," he told her, "that I'd be very calm and brotherly this morning and give you a chance to think. If you wanted to, that the whole thing had been a bluff for Uncle William, of course. I told myself I'd be a dog to take advantage of you. It wasn't the money I minded so much—I mean the chance that you're going to be horribly rich. That was what was worrying Uncle William, of course. But I reminded myself that you'd only known me about a week, and you were a mere child and probably didn't know what love was about, and how much nobler it would be if I showed you I wasn't just greedy and was willing to wait. And then I took one look at you and it all went hang. It is outrageous and indefensible, and everything else Uncle William said last night. And I will wait. I'll wait seven years, if you want me to. But do you think that could make you any surer?"

"I think," she told him, "that, if you'd said that first night at the Alhambra, 'Will you marry me?' instead of 'Do you want to be rescued?' I'd have nodded my head at you just the same. Anyhow, I've known since then."

"Well, then," he said, "that's settled, anyhow," and he let go one of her hands to fish a ring out of his waistcoat pocket and slip it on her finger.

It was a beautiful thing, and she sat gazing at it, spellbound, trying to realize what it was and what it meant. But, when she turned back to Martin to thank him with a kiss, she caught him in the act of looking at his watch. Even without that she could have told from the way his kias felt that he had something on his mind.

"What is it?" she asked. "Are you thinking about that old trunk? Does it matter if we don't get it this morning? Does anything matter?"

"There's only one thing that matters," he said, "and that's your father. I think perhaps we can do something, if we strike while the iron is hot. You see, the only person who can set your father's memory right is Uncle William. He knows the facts and I think he believes them. But he won't do anything until someone makes him."

"Who's going to make him?" she asked. But, when he answered, "Forster," she echoed the name in simple astonishment.

"I can't guess what it is, darling," he told her, "but there's something in that little trunk of yours that Forster thinks he can't live without. I want to find out what it is and hurt it at him while he's still frightened. He is frightened out of his wits. He's making Max marry that Cleveland woman. I saw them, this morning, down at the city hall, she with her face all bandaged up and Max looking as glum as if he was waiting to be sentenced to a term in the penitentiary, with Conley on guard to see that he didn't do a bolt, waiting for the marriage licence bureau to open up."

Gazing at him wide-eyed she saw him flush like a schoolboy, and at that she flew at him and hugged him. She couldn't help it. "Did you get ours, too?" she asked.

He nodded. "I thought it was better," he said, "—just in case of emergency. That's what I told myself at the time. But will you, Rhoda, now? Before we go and get the trunk? St. Timothy's is just around the corner. I know the curate, and he'll be there."

"I'll get my hat and coat," she said.

And it wasn't more than ten minutes before she found herself being married. She wondered later, when she had time to think things over, about how vague an impression this service made upon her. She was barely able to remember anything about it. On the other hand, every word Martin had said during their walk to the church was etched deep upon her memory. The force of his purpose to set up her father's name again in its proper place, cleansed of the mud of scandal and suspicion; the fact that he had a plan and that until he had set that plan in motion everything else, even love-making, would have to wait, put a new dimension into her love for him.

From the church they took a taxi to the railway station, found the trunk without misadventure and took it back to the studio. By that time they were both wildly excited over the mystery of its contents. Martin was trying to be calm, and insisted upon being madly methodical about their preparation for opening it. They had to clear everything out of one corner of the studio until they had a ten-foot space absolutely bare before he would let her unlock it. But she

saw his hands trembling as he tugged at the straps.

What they found was just what she dimly remembered the contents to have been, sheets of yellow paper covered with notes, equations and diagrams. Some of them looked to her like gigantic magnifications of a child's game of noughts and crosses. Pictures of molecules, Martin said he guessed they were, but it was all, he frankly admitted, considerably worse than Greek to him. There was an enormous amount of it, thousands of sheets.

What else was in the trunk? They got to the bottom of it and gazed at each other with eyes blank with disappointment. It seemed there was nothing in the trunk but those yellow sheets. The lining was of old-fashioned striped ticking and it was intact; nothing could have slipped down inside. There was an envelope in the lid, but it was empty.

Rhoda said shakily, "Well, that's

all. Martin, Claire thought the contract was in the trunk and she was mistaken. Mr. Forster thought something else was in it and he must have been mistaken, too."

Stubbornly he shook his head. "That's possible," he admitted, "but I won't believe it yet. I think what Forster wants is here, and, if I weren't such a fool, I could see what it is. I'm going to try to get this stuff into some sort of order. It's all dated, had you noticed? In little numerals up in the corner of each sheet."

Rhoda got up stiffly and announced her intention of getting lunch. "I'm going to cook my husband's first meal." He smiled at that, but only vaguely and didn't offer to come and help, so she made coffee and heated up a can of corned beef hash and set the little table while he continued to sit on the floor, shuffling his yellow papers.

They were so occupied when Babe, it being Saturday, came home from work, unaware that she was looking at a married couple. Rhoda told her promptly, and her exuberant joy over the news, combined with her fury at not having been invited to the wedding, produced the effect of an active young tornado.

It was right in the midst of this tumult that Martin announced a discovery.

SHRINE BAND CONCERT

At the concert given by the Glee Shrine Band on Wednesday evening in the Shrine Auditorium, the audience at an early stage in the programme was aroused to enthusiastic applause, and succeeding numbers received an equally warm reception. Appreciation of the reception given was expressed by Bandmaster Miller. Not only the band pieces but also the solos, quartets and duets greatly pleased the audience, particularly notable being a Sousaphone solo by Noble W. H. Handley, a cornet duet by Bandsmen Green and Davidson, and singing solos by Miss Merle North and Dr. John. Mr. Clifford Warn made a worthy accompanist.

When the handwriting expert was called, the first question put by counsel for the defence was "What have you done with the dog?"

"Dog? What dog?" asked the astonished witness.

"Why," said the counsel, "the dog a judge once said he would not hang on your evidence."

ARION CLUB WILL SING MADRIGALS

Male Voice Choir to Be Heard at Next Recital in Interesting Old Musical Form

The Arion Club has made a special study of the sixteenth century music this season under the direction of Mr. Stanley F. Bulley, organist of Christ Church Cathedral. Mr. Bulley was a member of the Plymouth Madrigal Society, conducted by Dr. Howard Lake, for several years.

The madrigal might be defined as a serious, irregular lyric averaging from nine to eleven lines. As a definite musical art-form the madrigal was known in the Netherlands by the middle of the fifteenth century. It was identified with the chief form of secular vocal music in England from 1588. In 1741 John Immyns founded the Madrigal Society in Fleet Street, which association still exists and is the oldest musical society in Europe. About the middle of the sixteenth century the Italians had developed the madrigal, making it independent of the words; thus when Orlando di Lasso set Marot's madrigals to music he called the result a "chanson."

Petrarca's sonnets to the virgin were set to music by Palestrina, and the volume known as Spiritual Madrigals resulted.

One of the many charms of this music is the cross-rhythms occasioned by the setting of the words according to their natural rhythm, resulting in passages of triple and double rhythm being freely interspersed with delightful effect. Thus the madrigal is a fine test of a choir's flexibility and alertness, and it will be interesting to hear how the Arion Club members acquit themselves at their next concert when they will sing a group of three madrigals. It is very fitting that the oldest male voice choir in the Dominion should have in its repertoire such charming music as the madrigal.

A THREE DAYS COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal

the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

"WET" GASOLINE

..what an
infernal
nuisance
on a cold
morning

NOT wet with water—just simply loaded with too-heavy fractions of petroleum—that's "wet" gasoline. It can't vaporize in a cold engine.

You "choke it" until the motor gurgles. And finally you go missing and spitting and jerking down the street.

Why tolerate it? Why accept "winter grades" of "wet" gasoline any more than summer grades?

There is a "dry" gas—one that starts on half choke and warms up the balkiest motor in half a moment. And the best part about Shell 400, this quick starting "dry" gas, is that it cuts down your oil dilution.

Drive with it a thousand miles and you'll find your oil has very little gasoline in it—not over 10%. But worry through a thousand miles on "wet" gasoline and you'll likely find 40% or even 50% crankcase dilution—caused by gasoline running down the cylinder walls into the oil.

Select a convenient yellow and red Shell pump. Fill with Shell 400 when your tank is low—and see how much quicker and easier you get started the following morning.

BLOW YOUR BREATH ON A COLD MIRROR

... that's what happens to "wet" gasoline in a cold motor—it condenses in droplets on the cylinder walls. "Dry" gas, on the other hand, stays vaporized better and therefore burns more cleanly

ROTARIANS RAISE NOVEL QUESTIONS

"Goat-Getting" Discussed at Luncheon Yesterday—Club Will Incorporate as Society

Rotarians lunched yesterday at the Empress Hotel, where some of the members took advantage of an opportunity presented by Mr. H. E. Loomman, when he asked the gathering, "What gets your goat?"

Mr. G. McGregor was convinced that three municipalities within a few miles of Victoria, and which could be all part of one great city, was the better of his. Mr. N. Rant thought the sight of Memorial Avenue with its profusion of thistles was sufficient to get his.

"Why do people have to leave their cars in a space which could be occupied by two other parking cars?" was a matter which got that of Captain T. J. Goodlake. Mr. W. Luney wondered why motorists in Victoria had no regard for pedestrians. The painted lines at intersections meant nothing.

Some of the criticism in connection with automobile problems were answered by Mr. H. Webb and Chief of Police Fry. Mr. J. McKay spoke briefly in connection with the "Spelbinders Club." It was decided to incorporate the club as a society on a motion by Mr. P. Marchant. A new member in the person of Mr. A. H. Cowlishaw was introduced by Mr. V. Clark.

World Brotherhood Issue Discussed

A meeting of the Falcon Tuxis Square of Fairfield United Church was held on Tuesday evening. Visitors were the Knights Christian Chinese Tuxis boys and the Fairfield Men's Club. The Falcons held their regular business meeting with the president, Gordon Fields, in the chair.

The devotional talk was given by Robert Warren. The Chinese boys took charge of the meeting at this point, and put on an initiation ceremony for the Falcons. A lunch was served in the social hall by the boys, and was followed by a sing-song. The president made a speech of welcome to the Chinese boys, and was answered by Ross Jong, president of the Knights Christian Chinese, who spoke on "World Brotherhood and China's need for more missionaries." A plea was made that all Tuxis boys would support Gordon Fields and Ross Jong in the coming elections for the boy's Parliament. An amusing dialogue, "Two Black Crows," was presented by Donald Fish and Grant Patterson, and was followed by a speech of welcome by Ralph Dent to the Fairfield Men's Club, expressing the desire for closer fellowship between the men and boys of their church. This was answered by Mr. Sturrock, president of the men's club.

JOHNNY FARRELL WINS GREAT MATCH FROM WOOD

Maroons Nose Out Ancient Intra-City Rivals After Great Struggle

Defeat Canadiens in Hectic Fixture 5-4: Ottawa Wallops Leafs

Senators Hand Toronto Outfit 9-2 Lacing—Black Hawks Send Pirates Down, 5-2—Cougars Stop Americans, 3-2

MONTREAL, Dec. 5.—Montreal Maroons took tonight's National Hockey League contest from the Canadiens by 5 goals to 4, but only after they had stood off the most determined last-minute drive seen on Montreal ice this season. It was Maroon's second victory over their intra-city rivals this year and came after the keenest, best-contested game here to date.

LEAFS TAKE BAD LACING

OTTAWA, Dec. 5.—Ottawa's hunting Senators put on an old-fashioned scoring bee when they met Toronto in a National Hockey League tussle here tonight, and handed the Maple Leafs a finished hockey lesson, outsmarting their opponents at every turn. The Senators were in nine goals, four of them on good combination plays, while the visitors dented the twine of the Ottawa citadel but twice. The line-ups:

Toronto	Ottawa
Chabot	Goal: Connel

HAWKS SET BACK PIRATES

PITTSBURGH, Dec. 4.—Pittsburgh's Pirates, of the National Hockey League, suffered their fifth consecutive defeat tonight, falling before the Chicago Black Hawks, 5 to 2.

The Pirates fought doggedly to avoid defeat. The Hawks, however, featuring Quackenbush and a strong supporting defence cast, kept the Pittsburghers at a distance, while sending Wentworth, Burns, Gotschall and Somers through to score. The lineups:

Pittsburgh	Chicago
J. Miller	Goal: Gardiner
Smith	Defence: Taylor
Mackinnon	Defence: Duitkowski

AMERICANS DROP ANOTHER

DETROIT, Dec. 5.—New York Americans took their sixth National Hockey League beating in seven games here tonight, the Detroit Cougars downing them 3 to 2 in a titanic game that saw only a flash of speed in the final minutes.

Herbie Lewis, small but speedy Detroit wing man, featured the Detroit offensive drive, scoring two goals, while Reg Noble, Cougars defence man, broke up most of the

New York drives in Detroit ice.

The line-ups:

New York	Detroit
Worster	Goal: Beveridge
Conacher	Defence: Noble
Simpson	Defence: Hicks
Himes	Centre: Goodfellow
Burnmaster	Wing: Auriel

Third period—5, Detroit, Lewis from Hay, 11:06.

NANAIMO WILL OPPOSE C.P.S. HERE TONIGHT

Classy Up-Island Cage Team to Make First Appearance at Victoria High School Gym This Evening

TWO PRELIMINARY GAMES ARE CARDED

Nanaimo, crack Up-Island senior "B" basketball quintette, will make their first appearance of the season on a local court tonight, when they clash with the C.P.S. in the feature game on the programme at the Victoria High School gymnasium.

The Up-Islanders have a splendid bunch of ball handlers, and will be out for victory from the opening whistle. Last year they were eliminated from the senior "B" championship by the classy Purshard positions and are a hard pair to beat.

Ernie Harwood, manager of the lumbmen, is confident that his boys will come through, for they have been playing first-class ball in the city league lately.

Bradshaw, scoring ace of the invaders, will be the man the local guards will have to keep an eye on, for when he gets anywhere within shooting distance of the hoop he is deadly. Walford, Brown and Haworth will complete their forward line. Kelly and Cameron look after the guard positions and are a hard pair to beat.

C.P.S. will take the floor as follows: D. Bissell, Gordie Woodbridge and Ferguson guards; Davis, Martin, Viggers, Butler, Warnock and Stew Killings as forwards.

In the opening game, which will start at 7:30 o'clock, High School "A" team will clash with High School "B" in an intermediate "A" fixture, while West Road and Sons of Canada will follow in a senior "B" tilt. Alan Le Marquand will handle all three games.

CVENGROS RELEASED BY CHICAGO CUBS

CHICAGO, Dec. 5.—The Cubs have sent Johnny Moore, first baseman, to the Los Angeles club of the Pacific Coast League on option and have released Mike Cvetengros, left-handed pitcher, to Indianapolis of the American Association, as part payment for Arthur Teachtout, promising Indian outstopper.

The Pittsburgh Pirates and the Cubs have agreed to a series of four exhibition games at Los Angeles March 27 to 30, inclusive.

Old Country Soccer

LONDON, Dec. 5.—Results of re-plays in the first round of the English Football Association cup ties yesterday were:

Game at Rose City Roughest This Season—Osmundson and Armstrong Draw First Major Penalties of Season for Fighting

PORTLAND, Ore., Dec. 5.—Victoria's homeless Cubs, Pacific Coast Hockey League tallies, battled to a swift, hard-fought nothing-to-nothing tie with the Portland Buckaroos on the Coliseum ice here tonight. Brilliant work in the nets by Earl Robertson and Andy Aitkenhead, as well as sturdy defence play, featured tonight's contest, as it has all three games played on local ice. Players on either team used the wood generously and spills were frequent and hard. After going through the first period without a penalty being called on either team, Referee Mickey Ion dealt out the first major penalty of the season when he set down Earl Armstrong, Portland wing man, and Osmundson, Victoria Sub., for ten minutes each for engaging in a little private war.

EARL ROBERTSON

Kenny saves goal. Four minor penalties were handed out in the third period, all for tripping. One of the penalties cut off a possible Buckaroo score when Coughlin slipped through the entire Victoria team with the exception of Kenny, and was headed for an open shot at the net. Kenny used the only means of stopping the fast Portland forward, and sent him heading to the ice.

Victoria staged an excellent exhibition of skating and stickhandling, despite the absence of Jack Kelly, scoring ace.

The two teams were very nearly even in goal shots. Portland had six chances to Victoria's five in the first period. Aitkenhead, Buckaroo goalie, made nine saves in the second period against seven for Robertson. Portland had nine chances and Victoria eight in the third, and in the overtime session Victoria ran up two direct shots against four for the locals.

Craig Wood Improves Medal Game Immensely

Victory in Hawaii Open Puts New Jersey Pro Well Up—Horton Smith Continues to Maintain Lead—Mortie Dutra Drops Badly

Every Winter, now, it happens. A new phenom shoots across the golf horizon. Today it is Craig Wood, winner of the Hawaii open with a total of 289 for the twenty-two holes, and before that victorious in the Oklahoma City open with 298, and high up in the Oregon open with 287. Wood's recent victories have not much affected his medal average for 1929, and he remains far down in the standings, but they do indicate that he is set for a good season in 1930.

In these three events, for instance, he played twelve rounds in an average of 72.5 strokes to the round, approximately two strokes to the round better than his season average of 74.89-105, made in 102 rounds. Horton Smith lost practically no ground by shooting a 292 at Honolulu. Neither did Tommy Armour, Gene Sarazen or Bill Burke.

The worst sufferer among the American visitors was Mortie Dutra. The Tacoma star's 310 caused him to drop back in the race for Pacific Coast honors.

JACK DEMPSEY AND TUNNEY MAY ATTEND CHARITY FIGHT SHOW

NEW YORK, Dec. 5.—Jack Dempsey and Gene Tunney may meet without combat in the ring at Madison Square Garden Monday night if the plans of the promoters of the annual Christmas fund boxing show go through. Dempsey is sought as a referee for the fight card and an announcement from the state athletic commission that he has been given permission to serve in that capacity is expected daily. An invitation has been extended to Tunney to serve as one of the judges for the same programme, but he has given no indication whether or not he will accept.

SCHOOLS WILL OPEN FOOTBALL SERIES TODAY

Victoria and Esquimalt to Meet at Oak Bay Park in Opening Game of Fragments Cup Competition

STRONG ELEVEN WILL TAKE FIELD

Victoria and Esquimalt Schools' football clubs will meet in the opening round of the Fragments of Pacific Cup series this afternoon at the Oak Bay Park at 3:30 o'clock. The match will mark the opening of the yearly football competition between eleven representing the four municipalities, Victoria, Oak Bay, Esquimalt and Saanich. Saanich are the present holders of the trophy, winning it last year after a great play-off with Oak Bay.

Today's encounter should attract a large crowd of fans, for the youngsters play a brand of soccer that deserves great praise. Esquimalt were eliminated last year by Oak Bay after a great tussle, and with the majority of their players still eligible, they hope to make a strong bid for the silverware.

Victoria's hopes of going further than they did a year ago are strengthened as they have held several practices and chosen their most formidable eleven for the competition.

Primo, star goalie for North Ward, will guard the net for the city schools' team, while Burnett and Bridges, of the same school, will play backs. Levy, Payne and Douglas, from George Jay, Margaret Jenkins and Quadra, respectively, will look after the half positions.

Okell, Victoria West; Fraser, South Park; Stevens, Victoria West; Parker, Quadra, and Lawson, of Margaret Jenkins, will form the forward line.

Erb, of Oaklands, will be spare back, and Bingham, of North Ward, will be the extra forward.

Esquimalt's team will be chosen from the following: Dick Miller, Jim Warwick and Herb Thompson, Esquimalt High School; Fred Buckton, Eric Wright, Dick Winch, George Townsend, Alf Ricketts, John Davies, John Blight and Ted Collins, of Lampton Street.

BURGE ARRIVES FOR DAVIES GO

Vancouver Boy in Fine Shape for Fight Tomorrow Night—Tickets for Battle Going Fast

Tommy Burge arrived in the city yesterday afternoon and worked out last night at the Tillicum gymnasium for the benefit of the ringworms. Burge states that he has been helping his fellow Londoner, Al Foreman, prepare himself for his bout with Billy Townsend at Vancouver next Friday evening. Tommy says that he is in wonderful condition for his ten-round fight with Abbie Davies, and declares that he will give a much better account of himself in tomorrow night's bout than he did when he met Tommy Fielding here some time ago. If his predictions in this respect are correct, then the local fighter is in for the toughest fight of his career.

Several of the local fight experts witnessed him perform, also his opponent, who boxed a few rounds after he left the floor. At the conclusion of the workouts several wagers were made on the outcome of the bout. Jumbo Davies, Johnnie Duffy and Kid Stubbs also worked out and they all appear to be in wonderful condition. Wing Hay, under the advice of his trainer, Bert Bailey, did not box. He has been working out hard every day and Bailey is of the opinion that a rest until he steps into the ring tomorrow night will do him good. Stubbs is taking the place of Bapteste Thomas, who is not in good enough shape yet to embark on a comeback. Thomas will appear in the next programme of events to be staged by the Victoria Boxing Club.

There has been a strong demand for tickets and it looks as if the boys will perform before a capacity house.

THE PAS, Man, Dec. 5.—Over a slightly altered course The Pas Derby, world's dog racing classic, will be run from The Pas to Flin Flin this year. It will be a 300-mile nonstop race, starting here on March 4. The Derby will be the feature of the Winter carnival staged annually at The Pas.

Hagen Better Golfer Than Ever as He Seeks to Regain Pro Crown

Diegel, Defending P.G.A. Champion, Also Has Improved Game

By WALTER HAGEN
(British Open Champion)

LOS ANGELES, Calif., Dec. 5.—No golf champion ever was better prepared for the defense of a title than Leo Diegel, who will face the professional field in the twelfth annual playing of the Professional Golfers' Association championship at the Hillcrest Country Club, starting on Monday. This will be the first national professional championship since the late Mr. Hagen's death in 1927. Hagen was the first to win the title, and he has been the champion ever since. He is making sixty-five, sixty-six and nothing worse than seventies in his practice rounds. The championship will have a mo-

LEO DIEGEL

tion picture background, for Joe Schenck, motion picture producer, has guaranteed the purse of \$10,000, which, outside the title, will be the spoils of the battle.

Hillcrest is a busy course, with new players arriving every day, and many four-somes leave the first tee with well-known motion picture actors playing with the professionals.

Hillcrest has for years been one of the most popular of the Los Angeles courses. It is on the short side, but I am one who does not believe distance is the best test of championship golf.

Hillcrest provides a course 6,500 yards long, with a par of 71 and great variety of holes. The land is rolling, and the fairways and greens, because of the \$20,000 worth of water poured on them each year, are green and soft and stand out like jewels against a landscape well

thirty-six-hole medal play round to determine the thirty-two to continue in the match play. Unlike the amateur championship, all the matches are at thirty-six holes.

There have been only five professional champions in the twelve years of the competition. Jim Barnes won twice, Gene Sarazen twice, Jack Hutchinson, and Leo Diegel once each, and I have had the title five times.

Diegel looks very good to me. My other favorites are Horton Smith and Tommy Armour.

Smith, who won \$14,700 in prize money last year, has started this season with a first in the Oregon open and a second in the tournament at Honolulu, and already has piled up a little more than \$2,000. The tournament year starts in October.

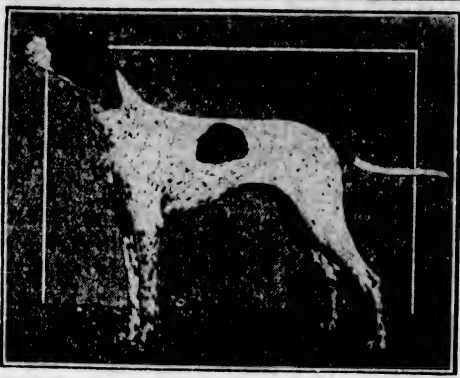

Craig Wood, New Jersey professional, who won one tournament last year, and who has looked like a good golfer for some time, has started with a bang, winning the Oklahoma open and the Honolulu open.

HAGEN SHARES POT

Smith certainly served notice on the boys in Portland. He stepped out and did two 67s for his first two tournament rounds for the season, and this put him so far ahead of the field that he cantered home for the first prize of \$1,200, which I was lucky enough to get in on, as we were business partners in that tournament. I have been fortunate in Portland. Last year I was touring with Johnny Farrell and he won the first prize in the Oregon open. The title was won that year by Dr. O. F. Willing, but Johnny and I got the money.

This only goes to show that I pick my partners with great care. I am certain that the galleries which followed the amateur golf

FORESTERS GO INTO TIE FOR FIRST BERTH

Defeat Motor Mechanics, 38-18 in City Basketball League Fixture—The Colonist Wins Another

Britannia Branch advanced a notch in the standing of the "B" section of the Interservice Billiard League last night on their home table by setting back Pro Patria No. 2 team, 569-524. The branch fielded their strongest squad, and three of their representatives managed to pull through with the required total.

Their victory places them in second place, four points behind the league leaders.

Rugby Team Defeated By Wigan XV, 18-5

LONDON, Dec. 5.—In a match played yesterday at Wigan a Rugby League team defeated the touring Australians by 18 points to 5.

In Rugby Union games Richmond defeated the Royal Naval College, Greenwich, by 17 points to 10. The Royal Navy beat Dean by 11 points to 5.

CHATTANOOGA, Tenn., Dec. 5.—Nick Allen was today named to manage the Jersey City club of the International League. Allen managed the pennant-winning club of the Western League in 1929 and previously was manager of the St. Paul club of the American Association.

It is understood that some mining machinery representatives are on their way to Porcupine to discuss the question of machinery for a new mill for Dome. This would indicate that it is the intention of the management to rebuild its structure instead of utilizing any idle mills or part of the Hollinger mill. There has been gossip on the street that Dome would build a 3,000-ton mill. Engineers say that they believe 1,000 would be ample, but they point out that Dome has tremendous tonnage of low grade in the west end and also in Dome extension ground, and it may be that the management is considering the possibility of treating this ore.

Renorts are that Abana has FORESTERS WIN

Foresters walked through to a 38-18 victory over Motor Mechanics in the last game. The losers, who have recently strengthened their team, put up a good fight in the first half and were only seven points short of their opponents' total at the rest interval, when the score stood 18-11 in favor of the Foresters. In the final session the Foresters ran away with their opponents and netted twenty points. The mechanics replied with seven. Bob Addie with sixteen points to his credit was high scorer.

The teams:
Foresters—Addie (16), Reynolds (13), Cann (9), Molr and Irvings
Motor Mechanics—Jones (5), Moore (3), McCals (4), Groves, Williams (2) and Wood (4).

New York Rangers Sign Niagara Falls Junior

NIAGARA FALLS, Ont., Dec. 5.—Orville Heximer, star left winger of the Niagara Falls junior hockey team will report to the New York Rangers of the National Hockey League next week. It was announced today. It is understood he will affix his signature to a contract providing for a salary of \$11,000 for two seasons' work.

MELTING MONEY DOWN BY THE TON

DAIREN, Manchuria, Dec. 5.—Money has been bought and sold in ton lots of recent weeks in this Japanese controlled port of Manchuria. The buying power of the Chinese "cash" coins normally worth one-twentieth of an American cent, has fallen so low that it has become profitable to buy them for their metal value.

Junks from Tsing-tao, Chefoo and Shanghai bring hundreds of tons a month into Dairen, where enterprising Japanese melt them down. A ton of "cash" can be delivered in Dairen for just under \$150. It shows a profit of \$20.

STROPPING IS ESSENTIAL TO THE PERFECT SHAVE!

Stop torturing your face

... follow the example of a million master-barbers!

There's a tribe in Asia which glories in self-torture. Natives actually lie upon boards of needles!

Savage? Of course! Yet thousands of men who shudder at such primitive practices indulge in a similar form of self-torture... they shave with needles!

Every used blade has millions of tiny needle points. Only stropping will smooth them out. That's why barbers strop before each shave!

And that's exactly what the new Valet AutoStrop Razor does automatically! A couple of flips on the strop... and you have an edge so keen that even the stiffest beard gives up in despair. It's the only razor that strops, shaves, and cleans without removing the blade.

Try it... you'll miss the sting and smart. You'll forget the fear of scraping. Each stroke of the razor is sure, clean, slick. And cool as a mountain spring! You get through faster—your shave lasts longer—your face feels better and looks it!

New million dollar

Try it... and know that the world has really progressed!

Complete with strop and ten blades.

Business on Sound Footing Bank Profits Greatest on Record

Sir James Woods
VICE-PRESIDENT

Mr. President: Before seconding the adoption of the report, may I take time to give the impressions of a business man on the extraordinary happenings of recent weeks, and the grounds on which my pronounced optimism is based.

developing a co-operative system of marketing of fish, similar in principle to that now existent in the potato industry of Prince Edward Island. Nova Scotia has produced another large crop of her famous apples and has gathered them under favorable conditions. The people of Cape Breton are looking forward with a good deal of expectation to the promulgation by the

duce yields even higher than those of the southern regions of the Canadian Prairie. This is not a new region, as it has been known for a century, and twenty years ago there were enough people who believed in it to cause the construction of a railway from Edmonton to the heart of the country. The new thing consists in the conviction of a multitude of people, who were skeptical, that the region is fit for agricultural settlement, and that it has such possibilities that it may some day be so important as to cause the Province of the Canadian Federation to be divided into months ending July last. In a thousand homestead and other operations were taken up by new set-

CASH ASSETS \$26,212,000

When we turn to the assets we and that our gold, letter tenders and bank balances and cheques on other banks and assets of that character are equal to practically 20% of our liabilities to the public, the total being \$26,212,000, or \$822,144 more than year ago.

The quick assets, in which we include Dominion and Provincial securities, Call Loans and other items of that kind, are 49.53% of our public liabilities, compared with 66% last year. The difference has been absorbed in the increase in our current loans, which have grown from \$7,350,000 to \$20,000,000, due largely to the call loans on the Government.

Newspaper continues to be one of the most important industries of the country and, with possibly one or two exceptions, has been profitable. Taking it all in all the returns to our people for their industry over the year under review have provided very comfortably for their needs and they should have something left over.

BUSINESS SOUND

A week ago, as retiring President of the Canadian Bankers' Association, I gave an address which in one quarter appears to have been misconstrued into a gloomy picture of the outlook. I have nothing to retract from what I said. I do believe that the recent period of inflationary expansion has been

The navigation development opens this important enterprise to the whole St. Lawrence question, which is of such vast interest to Canadians and Americans alike. The question is one which must ultimately be decided by the two countries, and, when it is, the Beauport deep-water ship channel, it will be, undoubtedly, an important

Three Local Companies Are Among Registrations

New Concern to Operate the Producers' Rock & Gravel Properties—Frondeg Farm, Cobble Hill, Passes Under New Control

Among the companies that have been incorporated during the past week in this province is that of the Producers' Rock & Gravel Company (1929), Limited, with its headquarters in Victoria, and with a capitalization of \$250,000. The object of the incorporation is to take over the existing company's assets and carry on business.

The Frondeg Farm, in the vicinity of Cobble Hill, is being taken over by a limited liability company, to be known as the Heather Bank Estates, with headquarters in Victoria, and capitalized at \$100,000.

The Colbert-Walkin Plumbing & Heating Company has been incor-

TO THE MEMBERS OF THE GORDON HEAD MUTUAL IMPROVEMENT SOCIETY

Take notice that a general meeting of the society will be held on Saturday, the 14th day of December, 1929, at the hour of 1:30 o'clock in the afternoon, at the hall on Trindall Avenue, British Columbia, for the purpose of passing resolutions for the winding up of the affairs and business of the society, and authorizing the sale of other real property of the society's real and personal property in such manner as may be determined, including directions as to payment of the society's debts, and distribution of the surplus, if any.

W. O. GRANT, Trustee

NOTICE OF APPLICATION FOR PRIVATE BILL

Notice is hereby given that an application will be made to the Legislative Assembly of the Province of British Columbia at its next Session by the Corporation of the City of Victoria for the purpose of known as the "Victoria City Act, 1929" providing for the following matters, and giving to the said Corporation the Municipal Council thereof the following powers, namely:

1. Repealing Sections 2 and 3 of the City Act, 1929, thereby enabling the Corporation to have their names registered in the Municipal Voters' List without first having to pay fees.
2. Amending Section 12 of the City Act, 1929, for the purpose of enabling the Corporation to have their names registered in the Municipal Voters' List without first having to pay fees.
3. Providing that the hours of polling on by-laws requiring the assent of the Corporation shall be from 8 o'clock a.m. to 6 o'clock p.m. on the day of polling (instead of from 8 a.m. to 6 p.m. as required by the Municipal Act).
4. Fixing the date of the Annual Tax Sale as the first Monday in November of each year (instead of the 30th day of September in each year as required by the Municipal Act).
5. Requiring that the authority of an agent appointed by a Corporation for the purpose of voting on behalf of said Corporation at any Municipal Election shall be filed with the Municipal Clerk on or before the 31st October of any year.

BUYING WAVE CHECKS LIKELY

IN-AND-OUT STOCK TRADERS
NOW OPERATING IN
LARGE BODY

Recovery Still in Initial Stage
Utility Group—Heavy Tax
Sales Potent

(B.C. Business Corporation, Ltd.)

NEW YORK, Dec. 5.—The ability of the market leaders to retain the

major portion of yesterday's gain, despite the profit taking in the closing

hour, should stimulate renewed buying.

The existence of a large body of in-and-out traders, however, should, at intervals, bring about a

check to the buying wave. News of the Federal Reserve meeting and the

brokers' loans figure will be published after the close of today's session.

Though no adverse development or unfavorable statements are anticipated, the trading community

has grown extremely cautious and is prepared to sell holdings any time

developments of an uncertain character are pending. The market's

underlying, however, shows a firm and we look for good buying on

all recessions.

The ability of the utility group to re-establish its position as a

factor in the upward is due, primarily, to the extreme lows which

the group recorded during the break. The recovery, however, though

of fair size, is still in its initial stage and we therefore do not look for

extremely heavy profit taking here.

What we said yesterday still holds good and we continue advising

to take profits here and there in order to strengthen one's position, particularly to bolster up marginal accounts.

The bond market is again in a good technical position and gratifying

profits are available in a number of high type securities. Gillette

bonds have already reached their top prices for the year, but the

next grade is still below levels they are entitled to.

FIRM TENDENCIES

Chesapeake & Ohio crossed 200

on the recovery and displayed firm

tendencies despite the profit taking

which was in evidence in the last few days. With earnings of this

road promising to reach \$30 per share, there is still considerable

room for further recovery. Stockholders approved the proposed

split-up of the stock and it will now

Commission whether or not this radical step will be carried out.

Approval of the split-up will undoubtedly create a broad market

for all high-priced railway issues and Chesapeake & Ohio, as the

initiator, will benefit from such development. It appears fairly certain

that if the split-up is approved, the new stock will be placed on a

\$3 dividend basis, which would be equivalent to 6 per cent yield on the current price. This yield is, in

CAPTAIN'S TEAM CAPTURES MATCH

Miss Dunsmuir's Side Defeats Secretary Mrs. Forbes Wilson's Squad 10-6

Miss Dunsmuir's team scored a

victory over a side led by the secretary, Mrs. Forbes Wilson, yesterday at the Colwood Golf and Country Club in the first captain vs. secretary team match, 10 to 6. Some

great matches resulted, many going to the last green before a decision was reached.

Mrs. Philbrick, city champion, and lead-off player on the captain's side, scored a fine victory over Secretary Mrs. Forbes Wilson. This match

was a nip and tuck affair throughout, with the former winning 2 and 1. Mrs. Wilding and Mrs. K. C. Allen, second string players on the respective sides, had a great battle which ended on the eighteenth green, all square.

The scores, with the captain's team first mentioned, follow:

Mrs. Philbrick 1, Mrs. Forbes Wilson 0.

Mrs. Wilding 1-2, Mrs. K. C. Allen 1-2.

Mrs. Parry 1, Mrs. Bennett 0.

Mrs. Richardson 0, Mrs. Alan Morkill 1.

Mrs. D. L. Gillespie 1, Mrs. C. E. Bay

Mrs. Goward 0, Mrs. Lawson 1.

Miss Dunsmuir 0, Miss Fitzgibbon 1.

Mrs. Crowe 1, Mrs. A. J. Gray 0.

Miss A. Michaels 1, Mrs. Leeming 0.

Mrs. Lee 1, Mrs. F. Hall 0.

Mrs. Scott 0, Mrs. D. Spencer 1.

Miss B. Richards 0, Mrs. Morris 1.

Mrs. Fraser 1, Mrs. Robertson 0.

Miss Fraser 1, Miss E. Michaels 0.

Mrs. Baylis 1-2, Mrs. Hagar 1-2.

POETS PLENTIFUL IN MIKADO'S LAND

Subject Announced for Contest—Over Thirty Thousand Poems Offered Each Year

TOKIO, Dec. 5.—From the Imperial Court has gone forth the announcement that the subject for the Imperial new year poetry contest for 1930 is "Kakue no Iwano," which may be translated "Rock at the Ocean's Fringe." Poems must be submitted before December 16 and awards will be made at the Palace in the presence of the Emperor on January 18.

Each year this announcement is keenly awaited by the Japanese public, more than 30,000 poems being offered each year, the participants usually including the sovereigns themselves and the most distinguished men and women of the nation. Japanese officials in America or Europe sometimes send their poems by cable. The verse must be in the classical "Kakue" form, with only thirty-one syllables in lines of five, seven, five, seven and seven syllables. The theme set for the contest becomes for the year the most popular subject for painting and sculpture as well as writing.

Last year the poetry contest was held at the "Farmhouse," because the national attention has

been turned to agriculture by the great harvest festival in connection with the enthronement of the Emperor at Kyoto.

SOUND AUCTION and CONTRACT by WILBUR C. WHITEHEAD The World's Greatest Authority

Small Cards in the Play More Illuminating Than High Cards

Spades rather than assist the Heart as his hand contains little or no assisting values for that suit and his Spade suit is simply strong to resist.

West leads the Ace of Clubs. The Dummy going down. West notes first

depend on Clubs in Dummy, the Two of Clubs played by partner, and the small Club played by South. So noted, West leads a second Club, which is trumped by East, who now

lays down his Ace of Diamonds, defeating the contract of five Spades (in Contract).

At most of the tables at which this hand was played, West, following the lead of the Ace of Clubs, shifted to the Queen of Diamonds, not a particularly good shift under any conditions with but a singleton in Dummy, and thus merely a mechanical play with no real thought behind it.

What would you do with the following hand:

COLONIST DAILY COMIC FEATURE

Total Circulation Canadian Daily Newspapers

THE daily newspaper is the most powerful advertising force in Canada because it is more closely and intimately linked with the lives of Canadian men and women than any other advertising medium. The daily press enjoys this unique influence because it has no rival in the service it renders.

Of all vehicles of advertising the daily newspaper alone fills the basic human need to be informed of what is going on from day to day---to know the news.

2,112,605 Canadian families ---98.5% of the total number in the Dominion---buy and read daily newspapers.

To these families --- which comprise every class of occupation and every range of income ---the daily newspaper is an

indispensable part of the day's activities. Its arrival is looked forward to every day. It is always accorded a warm and hearty welcome. Its absence, even for one day, leaves a gap nothing else can fill. No other advertising medium holds so vital a place in the every day life of Canadians as the daily newspaper.

For this reason advertisers---retailers as well as manufacturers---concentrate much the greater share of their appropriations in daily newspapers. Supplementary media may be used to a minor extent, but both national and retail advertisers know from their sales records that the backbone of every successful advertising campaign in Canada is the daily newspaper.
